DOCK GLOVER CONFESSES KILLING FATHER WHILE HE SLEPT

Birthplace of Saviour Is Described By Holy Lands Lecturer Here Tuesday

ALEX SKOVGAARD NOTED VIOLINIST IS COMING

WORLD FAMED MUSICIANS
HERE THURSDAY FEBRUARY 28.

Alex Skovgaard, noted Danish violinist and his wife, Alice Skovgaard, pianist, will give a recital at Yoe High school, Thursday evening, Feb. 28th. This will undoubtedly be the musical treat of the year for Cameron music lovers, for Mr. Skovgaard is recognized as one of the world's greatest musicians. The violin which Mr. Skovgaard uses was made by Stradivari in 1712, one of the almost priceless musical instruments in the world today.

Concerning a recent recital given Wichita Falls, Texas, the Wichita Falls Record News of that city says: "Axel Skovgaard, the Danish violinist, recognized as one of the greatest violinists of the world, captured the admiration and love of an audience at the Palace Theatre last night when he appeared in a concert in company with his wife, Alice Skovgaard, who besides playing his accompaniments rendered several piano selections.

From the time he first came upon the stage, Skovgaard with his wonderful personality and magnetism completely won the attention of the audience and throughout the concert not a sound could be heard in the house. Skovgaard stands above six feet, three inches tall and weighs in the neighborhood of 250 pounds. Seldom has a musician appeared in Wichita Falls who so completely won the admiration of the audience, through not only wonderful playing but the strong personal magnetism and personality.

Not a selection was rendered but what received encore after encore and in every instance the big Dane, with his ever ready smile, answered the applause of the people in the audience. This also could be said of Alice Skovgaard, who was as ready as her husband in responding to the encores.

A large bouquet of roses was presented to the Dane when the concert (continued on page four)

LUTHER McDONALD FOR COMMISSIONER BEAT 4

SHARP CITIZEN SEEKS PLACE ON COURT OF MILAM COUNTY.

Luther McDonald of Sharp will be a candidate before the voters of Precinct No. 4, in Milam county for the office of Commissioner.

Announcement that he would be a candidate for the office was made Wednesday while in Cameron. Mr. McDonald is to make an active canvass of the district which is composed of portions of Beat 5 and 8 of the county.

Mr. McDonald is a well known citizen of the beat which he seeks to represent on the Commissioners Court. He moved to Sharp nine years ago from the Buckholts community where he was born and reared.

By reason of his long residence in the territory he seeks to represent Mr. McDonald believes he will be well qualified for the office and his many friends in that section believe he is well fitted for the place.

Mr. McDonald is 40 years of age and his experience has been such as to qualify him for that office and if elected in his beat he promises to give his best service to the affairs of the office and to make the people a capable and efficient representative on the Commissioners Court.

A great experience that comes to few Americans has been the good fortune of Coleman Craig, writer, traveler and lecturer. His latest contribution to the platform in America is an illustrated lecture on continental Europe and Palestine, the Holy Land.

Several hundred Cameron people followed Mr. Craig Tuesday night in the best entertainment of the year at the Baptist church when he gave his lecture, describing with deep spiritual interest the places where once Jesus of Nazareth lived in the flesh. Mr. Craig for a number of years has been associate editor of the Baptist Standard and his gifted pen is known to thousands throughout the country. His lecture on the Holy Lands, accompanied with stereopticon views of the places of interest will supplement his already rich contribution to literature and current publication.

In 1923 Mr. Craig in company with other noted Baptist leaders, including Dr. Geo. W. Pruett, Dr. Lee R. Scarbrough, made a trip to continental Europe and the Holy Lands in Palestine. While on this trip Mr. Craig took photographs of the places of interest and is now using them in connection with his lecture.

Describing the conditions in Europe Mr. Craig discussed the economic situation in Germany, picturing the deplorable financial condition of the country, but expressed the belief that Germany's plight is not what one might assume from reading current literature. He said that Germany should be required to pay every cent of the indemnity asked by France and made a comparison of conditions in the two countries. The feeling between the two countries, he said, is such that an immediate cordial relationship between the peoples is not at all likely. The de- (continued on page four)

MOSQUITO CONTROL IS SOUGHT FOR CAMERON

SANITARY OFFICER AND CITY TO PROMOTE CAMPAIGN BEGINNING SOON.

Control and eradication of mosquitoes and flies as a health measure is sought by Dr. G. E. Sutton, sanitary officer of Cameron, in co-operation with the City Council, State Board of Health and the various civic organizations of Cameron.

E. W. Steel representing the state government was in Cameron Wednesday in consultation with Dr. Sutton and a campaign has been outlined for the city.

On February 18 and 19 T. A. Fisher of the school will hold a conference with the teachers looking toward the organization of campaign among the school pupils.

On February 25 and 26 Dr. Sutton will appear before the student body is a series of lectures on control of the mosquito.

Enlisted in the work are the Cameron newspapers, Civic League, Lion's Club, Parent-Teachers' Association and other organizations that contribute to the civic energy of the city.

An active and systematic campaign will be carried on beginning this month and through the spring and summer as a part of the sanitary program that has been mapped out by the city government.

Co-operation is needed in this work from all sources because it is necessary that measures of this nature be taken to insure protection to the public health.

CHILDREN ARE BITTEN.

Dr. G. E. Sutton reported at three o'clock this afternoon that two small children were bitten this afternoon by a mad dog. Precautions are being taken.

EXAMINING TRIAL FOR DOCK GLOVER HELD THURSDAY

Dock Glover, 18 year old boy, sat in the court room this afternoon with blanched face, his faded jacket drawn close about his body and worn hat clutched tight with nervous fingers to hear the testimony of those who were called before Justice J. M. Ralston to tell about the murder of his fifty-three year old father J. E. Glover in the dead hour of midnight Sunday at their farm home near Jones Prairie.

Close about the boy was gripping the line of prosecution conducted by S. M. Burns representing the office of the district attorney. Close by sat his attorney W. W. Chambers, his mother, Mrs. Ora Lee Glover and his brother Lindsey Glover. One witness told the story of how his father had denied his children the privilege of social gatherings and also the witness testified that the boy had never been seen at church or Sunday school.

Sheriff Rogers told of his visit to the home. The boy had made a statement in which he admitted killing his father, because his father he said had mistreated him. The sheriff said that Lindsey Glover told him that his father seemed to be more severe on Dock than any other member of the family. Lindsey Glover told Sheriff Rogers that his brother Dock said two months ago he was going to kill J. E. Glover.

At 3:30 o'clock Dr. W. J. Fontaine, physician, was called to the stand to testify. The court room was packed and a hush closed over the room as the gruesome details of the murder was recited by witnesses who told what they knew.

The trial was held up at four o'clock for the Sheriff to go to Jones Prairie and bring the daughter of the home to testify in the case as a defense witness.

CITIZENS TRAINING CAMP.

Fred E. Cable of the First National Bank has received application blanks from Fort Sam Houston for the civilian training camp in August. All those who wish to make application for the camp may see Mr. Cable and further announcements will be made. At Rosebud, his former home, Mr. Cable assisted the government and sent a large class each year to the training camp.

Miss Lois Burnett is a patient in the Cameron Hospital recovering from an appendicitis operation.

Chevrolet Writing Contest Won By Mrs. H. E. Garner

The following essay on "Economic Transportation" was submitted by Mrs. H. E. Garner of Cameron and has been declared the winning essay of the number submitted. Mrs. Garner receiving the first cash prize given by the White-House Motor Co.

It has been very aptly said that, "transportation is the first hand-maid of civilization." Today the development of our waterways, railways and automobiles, not to mention aeroplanes, is making possible for us a very highly developed civilization.

In speaking of means of transportation I neglected to mention the wagon and team, because they, as a mode of travel, are about to take their place alongside the ox-wagon of half a century ago and become as obsolete. The time is not far distant when those of our farmers who have not already done so, will realize the need of a quicker, more efficient and economical means of marketing their produce. Then we will see the completion of the movement already well started on the farm to replace the old time-absorbing, expensive wagon and team by the quicker and more economical motor car. By using trucks and tractors for farm hauling and cultivation, the cost of maintaining many draft animals will be eliminated, and therefore much food saved

Thorndale Man Is On Trial For Killing of Robert Caffey In 1923

BANKERS OPPOSE MORE CHARTERS FOR TEXAS

WACO MEETING SEES RESOLUTION PASSED DEPLORING APPLICATIONS FOR CHARTERS.

At the meeting Wednesday in Waco the Bankers Association went on record as opposing granting of state and national bank charters. Recently a number of applications have been made for charters in Texas and one application is now pending by Cameron citizens headed by H. M. Hefley, former cashier of the First National Bank of Cameron, for a state bank to be located in Cameron. The following is the resolution passed:

"Realizing that the present large increase in banking deposits has caused a considerable number of applications to be made to the controller of the currency of the United States, and to the commissioner of banking at Austin, in localities where there already exist ample banking facilities;

"And, whereas, the average deposits and net earnings on invested capital in said location are not excessive and if taken into consideration would not justify the granting of further charters for bank institutions, and to increase banking competition would have a tendency to cause inflation of credits, unsound banking and eventually bring about further bank failures; therefore, be it

"Resolved, that we respectfully urge and recommend to the controller of the currency of the United States, and to the commissioner of banking at Austin, Texas, in the interests of sound and safe banking that no further charters be granted because of temporary conditions or inflation of deposits, and that charters be granted only when, in their wise judgment, the needs of the community can be best served by additional banking facilities, and that in arriving at their decisions they take in consideration the average net earnings to the stockholders over a period of five or ten years and the average deposits in said institutions for the same period of time."

The case of Ed. Beard charged with the murder of Robert Caffey in Thorndale in September of 1923 on trial in the district court was expected to go to the jury by Thursday night or Friday morning.

When the court resumed session this morning testimony was being taken following a long succession of when the jury was completed and testimony began to be taken.

Beard was tried for the murder of Caffey in the latter part of 1923 after his indictment by the grand jury. The jury could not agree, standing 9 for conviction and three for acquittal.

Robert Caffey, a student at the Baptist Theological Seminary in Ft. Worth, was killed in the home of Jess Hyde in Thorndale on Sunday afternoon after Beard and Caffey had met at the church on Sunday morning. Beard went to the home of Mr. Hyde, his uncle and Caffey was roused from sleep and shot to death as he sat on the bed holding a Sunday school card in his hand according to the testimony of Mrs. Jess Hyde, eye witness and their daughter, Miss Winnie Hyde.

Beard testified that he believed Caffey guilty of improper relations with his wife, Mrs. Beard has not testified in the case at any time. All during the week as at the first trial the court room has been crowded. The testimony in the case is about the same as in the first trial, all of which was printed in the Herald in full both at the examining trial and at the trial in District Court after an indictment had been returned against him.

Beard was former constable at Thorndale and Caffey and Mrs. Ed. Beard were cousins.

Taking of testimony was ended at noon and Judge John Watson began the preparation of his charge to the jury. Argument was expected to begin early Thursday afternoon.

ARGUMENT OPENS IN THE ED. BEARD CASE.

Argument was begun at two o'clock in the case of Ed. Beard charged with the murder of Robert Caffey at Thorndale in September 1923.

E. A. Camp of Rockdale spoke for the state, E. A. Wallace and W. G. Gillis for the defense spoke and the case was to be closed by District Attorney Jack Lewis.

Dr. and Mrs. James Watson spent several days in Waco last week.

JOHN CHOLLETT OUT FOR PUBLIC WEIGHER OFFICE

PRECINCT 7, PLACE IS SOUGHT BY BURLINGTON MAN AND FARMER.

John Chollett, well known Burlington farmer, is a candidate for the office of Public Weigher in Precinct No. 7, subject to the Democratic Primary in July.

Mr. Chollett is 33 years of age and has resided for the past ten years at Burlington, being engaged in farming all the time and at this time a farmer. He believes he understands the needs of the farmers and if elected to the office will come into the office with a deep sympathy for the farmers to the end that he will make for them a faithful and efficient public weigher.

Mr. Chollett is making the race for the office on his own merits and promises if elected he will serve all the interests of all the farmers of the precinct in which he will serve as a public weigher if elected. The office of public weigher carries with it a great many responsibilities and Mr. Chollett believes he can measure up to these responsibilities.

DOCK GLOVER, 18, SAYS HE SHOT AGED FATHER

CONFESSION SAYS FATHER WAS MEAN TO HIM AND SAW HIM COUNTING MONEY.

Dock Glover, 18, in a confession signed before the district attorney and Sheriff Drue S. Rogers, Tuesday afternoon, confessed that he killed his father, J. E. Glover, while the latter slept in bed Sunday night at their farm home near Jones Prairie.

Following the report of the shooting Sheriff Drue S. Rogers and deputy N. O. Kennedy went to the Glover home to make an investigation. After investigation Mrs. Ora Lee Glover, wife of the dead man and her two sons, Dock and Lindsey Glover, were placed under arrest and were brought to Cameron and placed in jail.

On Tuesday the boy confessed, saying that he had killed his father and giving as his reason that his father had mistreated him.

He stated that after coming from the cow pen, Sunday night, where he had been milking, he saw his father and mother counting the money which they kept in the home in a bucket, the father being suspicious of banks, that he went back outside to feed the hogs, returning in a short while and going to bed, after hearing his father tell his sister to put the bucket with the money in it under his bed.

He said he then went to sleep, but awoke about 11 o'clock that night and went into the room where his father and mother and youngest sister were asleep, obtained a shot gun and returned to the room where he had been sleeping, partially closed (continued on page four)

MRS. KATHERINE ROBBINS FOR SUPERINTENDENT

INSTRUCTOR IN CITY SCHOOLS ANNOUNCES FOR COUNTY OFFICE.

Mrs. Katherine Robbins has announced as a candidate for the office of County Superintendent of Public Instruction for Milam county subject to action of the Democratic Primary in July.

The announcement that she would be a candidate for the office was made Wednesday afternoon by Mrs. Robbins in releasing her announcement for publication in the Herald and her name will appear in the proper announcement column of this paper.

Mrs. Robbins needs no introduction to the voters of Milam county. Her parents, Mr. and Mrs. Henry Knipp, were pioneer settlers of the county, and most of her life has been spent in Cameron.

She received her education in the Cameron High School and the University of Texas, and is well qualified from every standpoint to fill this important office. She has given eleven years of her life to the profession of teaching. She has taught in the rural schools of this county, and is at present teaching in the intermediate grades of the Cameron schools. During her professional career Mrs. Robbins has been a close student of educational progress in Texas, and has a clear and commonsense understanding of the present day needs of the schools. Her strong personality and marked qualities of leadership would insure to the office, in the event of her election, the efficient administration which it demands and deserves.

For three years Mrs. Robbins served as Chief Deputy in the office of the County Clerk of Milam county, and for one year during the period of the world war was employed in the War Risk Insurance Bureau, Washington, D. C.

The valuable clerical training and experience received in these positions would prove a very valuable asset in handling the clerical work of the County Superintendents' office.

SOCIETY NEWS

BY MRS. JEFF T. KEMP

METHODIST MISSIONARY.

The rainy weather Monday afternoon interfered with the meetings of the Methodist circles.

Circle one, met with Mrs. B. J. Baskin. Three members were present and a social hour was enjoyed.

Circle two, held no meeting.

Circle three, held no meeting.

Circle four, met with Mrs. Alex J. Triggs. Seven members were present. Devotional was led by Mrs. W. H. Triggs. Mrs. Joe Lindsey led the lesson from Missionary Voice. Mrs. Lena Baskin discussed the lesson.

Mrs. W. O. Triggs gave an interesting talk on Child Labor. All present took part in the discussion that followed.

The entire membership will meet next Monday for Mission Study, directed by Mrs. R. L. Batte.

The bonnet and apron sale to be given by Circle Number Two will be held on February 22nd at Mrs. Posey's Bakery.

WESLEY BIBLE CLASS.

Mrs. R. H. McIntosh entertained the members of the Methodist Wesley Bible Class at her home on Friday afternoon. Recognition of the Valentine season began at the door where the hostess met each guest and pinned on her a red heart bearing a feminine Bible name, such as Mrs. Adams, Mrs. Noah, Mrs. Methuselah, Mrs. Jehosaphat or Mrs. Nebuchadnezzar. The ladies were all placed in line and formal introductions to each character given by the hostess. After the joys of meeting were over an A. B. C. contest in Bible names followed in which B. J. Baskin excelled and she was given beads as a souvenir.

Red hearts bearing the names of class members were distributed to each present, the name to be kept as an inviolate secret for three months, while a program of loving kindness is being quietly carried on. At another party to be given later the names of these Valentine heart sisters will be revealed.

In the final hour of the hospitality refreshments were served. The ladies bearing the names of antediluvian patriarchs having precedence over those who bore the names of saints who lived after the flood. An appetizing luncheon conforming to the Valentine motif was daintily served.

Circles one, two and three of the Baptist Missionary Union held no meetings on account of inclement weather. Circle four met at the church with five faithful members present. Miss Winnie Henderson led the Bible Study class.

PEMBERTON-PARTY.

On Saturday afternoon at the court house Mr. Clarence Partee and Miss Cora Pemberton were married. Judge Jeff T. Kemp, officiating. After a short honeymoon spent with relatives near Buckholts, the young couple will begin housekeeping on the W. C. Ford dairy farm near Cameron.

HONORING MISS MATULA.

Mrs. E. H. Kershaw, 708 South Nineteenth street, entertained with an announcement party and miscellaneous shower, in honor of Miss Lydia Matula, Tuesday evening from 7 to 11 o'clock.

A color scheme of red and green was beautifully carried out in the reception rooms where crystal vases of red rosebuds and carnations were everywhere in evidence against a background of luxuriant potted ferns. Double hearts, in red, were also used in artistic profusion.

Miss Matula was invited to arrive at 7 o'clock, and, extending greetings with her hostess, was her sister, Miss Lucy Matula of Cameron, who was part of the surprise, she not having known that her sister would be there. The honoree was then greeted by the guests, her friends and co-workers, the nurses and members of the clinic at Scott and White's hospital. The hostess then blindfolded her and she was led around over the house, and finally, back into the living room, and, when she and her hand extended just at the right position, the hostess suddenly loosened the bandage, and she stood with hand extended over a large wicker hamper. Her surprise was genuine and enthusiastic, and very soon each package had been unwrapped and its contents admired. All kinds of lovely things in linen, silver, aluminum, and other treasures for a new home were in the collection.

A number of merry games and

contests were played, Miss Johnson being presented with a dainty hand embroidered dresser cover as trophy in the heart game. At 8 o'clock, the honoree's fiancé arrived, and partners were drawn for progressive "42". Honors were won by Miss Wilson and Mr. Swayne, who received a large bouquet of crimson carnations. This they very graciously presented to Miss Matula.

At the close of the delightful evening, Mrs. Kershaw, assisted by her nephew, William Perkins, and by Mrs. G. L. Gott, served delicious refreshments of chicken salad in lettuce hearts, cheese straws, olives, hot coffee with whipped cream. In the plate favors came the real surprise of the evening for inside the double red hearts, written in white ink, was the announcement, "Swayne-Matula, Feb. 25, 1924," the groom to be, being Med Swayne, son of Mr. and Mrs. W. W. Swayne of this city. Fifty guests participated in the pleasures of the evening.—Temple Telegram.

LIONS CLUB.

The Lions Club on Tuesday enjoyed a three course luncheon at the Bigbee hostelry.

Between courses Miss Lillie Kate Beckerman and Miss Katharine Agee furnished a musical program. The first number was a vocal duet, "I Love My Home, Sweet Home." The second number was an instrumental solo and the third musical number was a piano duet, "The Country Band" a musical medley. Each number received merited applause.

FREBYTERIAN AUXILIARY.

On Friday of last week the Women's Auxiliary of the Presbyterian church held an all day meeting for Mission Study, the book used being "The White Fields of Japan." The book by chapters was discussed by Mesdames N. H. Butts, H. R. McFadyen, Ben Atkinson, R. D. Brown, Henry Sapp and W. G. Gillis.

Mrs. C. W. Read gave a vocal number, Mrs. Paul Webb and Mrs. Jeff Avera gave piano selections.

At noontime luncheon was served in cafeteria style to members and several business women who had a short time to enjoy the social feast with their friends. Mrs. Bettie Merri of Caldwell was noted among the visitors. The program was directed by Mrs. Henry Sapp, local secretary of forcing mission. The Missionary offering was most liberal.

The Presbyterian Auxiliary met at the church on Monday afternoon. The 3rd and 4th chapters of Galatians were studied under the leadership of Mrs. W. G. Gillis.

HIGH SCHOOL PLAY.

Friday evening the cast of Yoe High School Seniors who recently presented the play "A Full House" to Cameron and Belton audiences, went to Rockdale to gain new laurels on the stage.

A kindly circle of friends greeted them and the proceeds of the evenings entertainment and pleasure will assist materially in securing the new gymnasium so eagerly desired by the various school teams.

The following were noted among those who motored to Rockdale for the play: Mrs. F. J. Beckerman, Miss Lilly Kate Beckerman, Katharine Agee, Mrs. R. C. Harper, Fred Childress, Mrs. J. G. Vest, Miss Virginia Vest, Richard Vest, L. Van Perkins, Mrs. Wm. Rogers, Miss Jolly Blanche Pitts, Eloise Rogers, Floy Hardin, Mrs. Arthur Baskin, Miss Rosalie Baskin, Irvin Harlan, Elbert O'Neal, Hooks Slocumb, M. Wiley, Frank Cheeves, Jack Hearrell, Eugenie Wallace, Kenneth Keith, Glenn Clifford Barmore, Gillis Graham, Mrs. J. B. Preston, Kathleen Baggett, Sam Cheeves, Misses Frank Duke, Hightower, Lucile Camp, Mary Sue Denson, Francis Morrison, Lucile Dickard, S. Sterling, Nelta Sloan and Helen Green.

HISTORY CLUB.

Mrs. W. G. Gillis was hostess to the Cameron History Club on Tuesday afternoon, February 13, at her home on West 11th Street. Miss Ada Henderson led the lesson on Economic and Political Conditions in Europe. Mrs. Kathryn Robbins discussed Russian affairs spoke of the passing of Lenin.

Mrs. Wm. Henderson discussed the Mellon Tax Plan.

The leader called for individual tributes to Woodrow Wilson, peerless statesman recently departed.

Master Joseph Lloyd Mitchell

signified by his presence his appreciation of the silver cup given him by the club.

A salad course was daintily served. In hostess duties Mrs. Gillis was assisted by Mrs. Lloyd Mitchell.

VALENTINE PARTY.

The popular theme of the week—the Valentine season—furnished the keynote for home decorations and game accessories when Mrs. Giles L. Avriett was hostess to the Bridge Club on Tuesday afternoon. To the rooms given over to the hospitality handsome ferns and bowls and vases of narcissus gave a festive charm. Over the doors, mantle and windows were garlands of crimson hearts, cupids and valentines. The dining table was centered with a full white narcissus guarded on either heart shaped arrangement of beauties by red cathedral candles glowing in tall silver candlesticks.

The four bridge tables were outfitted with white covers with all accessories in accord with the Valentine idea and centered with miniature flower pots with candy plants in the pastel shades. In the final drawing these were given to Mesdames Tiff Moore, Charles F. Swift, Miss Aetna Smith and Mrs. Rush Thomas.

After four games the hostess awarded a growing plant to Mrs. Oxsheer Smith for high score, a red satin heart bag to Miss Gladys Watson for low score a candy lady lollipop to Mrs. John Watson for consolation.

Mrs. Charles F. Swift, who leaves on Thursday, was presented by the hostess with a hand made red satin bag filled with heart sachets, one for each member of the Bridge Club who will miss her most heartily.

A two course luncheon was served after game accessories were removed and the small tables covered with heart designed spreads. Each plate bore a valentine favor in cupid design.

The menu carried the color scheme and was as follows:

Veal loaf with beet hearts, pimento salad, pickles, peas in potato cups, heart shaped biscuits, hot coffee, pineapple ice, fruit cake.

The hostess was assisted by her sisters, Miss Jeff Lewis and Miss Myrtle Avriett in doing the honors of the occasion.

ART AND MUSIC PROGRAM.

The happy combination of music and pictures appeared in the program given in Yoe High School Auditorium on Friday evening by the teachers and pupils of the Grammar School. The Elson Art Exhibit attracted many visitors during the three evenings the pictures were on display. Three attractive programs were presented. The first evening the teachers of the High School had charge of the exhibit and program. The second evening officers and members of the Parent-Teachers Association were responsible for the entertainment. The third evening the numbers were contributed by the teachers and pupils of the Grammar School. This program was arranged to visualize the family pictures that are so dearly loved by all.

Living pictures with our own children posing and giving the history and explanations necessary to a proper appreciation of the art and art-

ists furnished a rare and enjoyable entertainment. Music and folk dances gave added charm, grace and value.

The following pictures were presented, the first named pupil posed for the picture and the last named pupil presenting the facts necessary for the proper understanding of the work of the artist:

1. Simplicity—Katherine Hefley, Dorcas Batte.
2. Girl with Apple—Katharine McIntosh, Wm. Collins.
3. Boy with Torn Hat—L. T. Lewis, Dorothy Kidd.
4. Little Rose—Mariema Thweatt, Oma Graham.
5. Supper Time—Eunice Tyson and Bettie Foster, Leland Green, Jr.
6. Madonna of Choir—Charlotte Pardo, Lula Mae Paddock, Johnnie Mae Hayes, Florence Atkinson.
7. Age of Innocence—Hortense Klawansky, Miriam McFadyen.
8. Boy with Rabbit—Dora Emily Moore, Abbie Batte.
9. Gleaners—Mittie Lou Howard, Ola Mae O'Neal, Mary Belle Batte, Nancy Ree Slocumb.
10. Whistling Boy—Roy Esslinger, Sam McDermott.
11. Knitting Lesson—Lois Randolph, Imogene Sapp.
12. Song of Lark—Marjorie Dusek, Martha Schigut, Tedrow Swain.
13. The Train—Bess Mangum, John Atkinson, Mack McDermott, Roy Baskin, Jr.
14. Cherry Ripe—Katharine Hefley, Ann Graham.
15. Children of Charles I—Grover White, Maiddie Watson, Ray Burke, Francis Smith.

In a contest waged by teachers and pupils of the several grades for the sale of season tickets for the art exhibit the class of Miss Laura Wendt was successful.

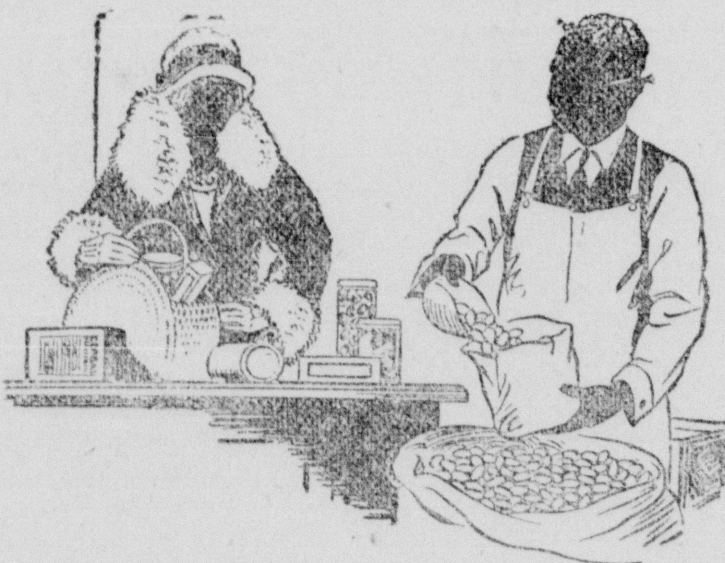

The following program arranged and presented under the direction of Mrs. Joe Denson and other teachers of the Grammar School impressed the beauty and worth of the pictures on very person in the large auditorium.

1. Piano Solo—Gladys Davis.
2. Tableaux—Living Pictures.
3. Fairy Dance—Carolyn Cheeves and Patsy McGregor.
4. Violin Solo—Mildred Clinton. Accompanist, Lola Clinton.
5. Gipsy Dance—Sue Griffin Webb.
6. Reading—Hortense Klawansky.
7. Norwegian Folk Dance—Dorothy Denson, Harriett Flinn, Allene Maddox, Reba Young, Louise Johnson, Helen Jenness, Lena Bell Baskin, Bethel Middleton, Callie Heath, Elizabeth McDermott, Hazel Freeman.
8. Chorus—Sweet Nightingale, 5th Grade Girls.

Chevrolet Writing Contest Is Won By Mrs. H. E. Garner

(continued from page one.)

of transportation where the electric railway has failed; to aid in solving the transportation problems of big organizations in exploiting mines, forests, quarries, and oil fields; to transfer children to and from school in our large consolidated rural schools; to aid in the distribution of foods; to do transient hauling; and for pleasure traffic.

Having given a brief outline of some of the many and varied uses for the economical operation of motor vehicles in general, we will now set forth some of the reasons why the smaller motor vehicles, as exemplified in the Chevrolet, are more economical than the large ones.

First—Let us consider the size of the vehicle in relation to the road over which it is to travel. In doing this it is well to bear in mind that the construction of highways outside of our towns and cities is today in its infancy. According to a well known authority, only twelve per cent of our 2,500,000 miles of highways can be classified as improved, and not over one fourth of one per cent are suitable to carry intensive motor traffic. By using the smaller motor cars the new rural highways could be made to last longer since the small car does not tear up the roads as badly as the large one. The small car is also able to "deliver the load" over roads which would be impossible for the heavier large car.

When we attempt to use large trucks to any extent we find that we are losing the value of this large equipment because of the fact that the railways, which continue to carry less than car load shipments and short hauls, get most of the hauling that would ordinarily come to the large truck, that we have to use the large truck for small operations, or that it stands idle most of the time. So considering the higher cost of the large truck, the greater expense for upkeep and operation, we are forced to a realization of the economy of the smaller truck.

Having shown that the smaller motor vehicle is more efficient and economical than the larger one, it is now our purpose to show that among small motor vehicles, Chevrolet leads in economy.

First the original purchase price of Chevrolet cars is more economical because they embody more real value for the amount paid than any other car on the market. When sold they are fully equipped with over one hundred dollars worth of extras. They are fitted with an exceptionally powerful and flexible valve-in-head motor, the power of which often makes it unnecessary to change

gears, even in carrying extremely heavy loads up steep hills. They have superior electric ignition, being equipped with Remy starter and generator, the best on the market. The water cooling system with honey comb radiator and water pump, insures a cool motor on long drives in the hottest weather, while the exhaust heater attachment to carbureter and splendid sparking mechanism insure easy starting in cold weather. The lubricating system of Chevrolet motors is the best in existence. It has a pump circulation of oil, the working of which is shown on the dash by an oil pressure gauge. This gauge alone has saved and will continue to save Chevrolet owners thousands of dollars by indicating the oil circulation and preventing burnt out bearings. The rear axle is fitted with strong spiral-bevel gears, so constructed as to receive the power of the motor transmitted by a positive cone clutch, without breakage, noiselessly, and with few replacements, thus adding another word for economy of Chevrolet motor cars. The bodies of all Chevrolet cars are of the best modern construction, with fine durable finish.

Second, Chevrolet cars are more economical in operation. The engine and heavy parts are swung as low as possible to leave sufficient ground clearance. This lowers the center of gravity of the car which aids in eliminating friction and pull of the road in opposition to the driving power of the engine. This perfect balancing of the car, together with the powerful motor, brings about the fact that no other car compares with the Chevrolet, in gasoline mileage, tire mileage, and oil consumption.

As a safety consideration a Chevrolet car is an unexcelled investment. The easy gear shifting renders it readily manageable under the most trying conditions, while the low center of gravity makes it cling to the road and almost impossible to turn over.

Third, Chevrolet cars are more economical in the comfort and satisfaction afforded the passenger. The comfortable upholstery and spring suspension of Chevrolet bodies makes the riding easy. The double ventilated windshields on all models, wiper on closed models, and curtains

that open with the doors on open models, make all Chevrolet cars very desirable for rough weather traveling. Other features that afford added comfort to the passenger are: the suction fuel feed with gas tank in the rear, making it unnecessary to displace passengers or baggage when refilling tank, as well as affording more space for baggage; a motor that is properly cooled; and demountable rims on all models, insuring a great saving of time and energy in changing tires.

The easy gear shifting makes the Chevrolet an ideal car for women, while its artistic appearance is a source of continued satisfaction to them.

Fourth, Chevrolet cars are more economical in up-keep. In practically every town in the United States you find a Chevrolet dealer or service station where you can obtain parts for immediate use. The time required for repair is short because the parts fit and also because of the use of special Chevrolet tools and jigs made especially for Chevrolet Service People. These things enable them to keep your car operating at minimum cost. The "flat rate service plan" is an economy in satisfaction to the owner, inasmuch as it enables the Chevrolet Service to tell you in advance what your repair work will cost. The fine permanent finish of Chevrolet bodies insures better appearance for a longer time with less expense for refinishing. The small size wheels also make

possible a retiring at small cost.

Above all, the highgrade construction of Chevrolet cars as a unit, eliminates the necessity for many repairs, and in itself reduces the cost of upkeep to a minimum.

NOTICE IN PROBATE, THE STATE OF TEXAS

To the Sheriff or any Constable of Milam County—GREETING:

You are hereby commanded to cause the following notice to be published in a newspaper of general circulation which has been continuously and regularly published for a period of not less than one year preceding the date of the notice in the County of Milam State of Texas, and you shall cause said notice to be printed at least once each week for the period of ten days exclusive of the first day of

publication before the return day hereof:

NOTICE.

THE STATE OF TEXAS.

For Tax Collector:
ROY LAW.

For Commissioner Precinct 7:
CHAS. MAAS.

For Commissioner Precinct 4:
LUTHER McDONALD.

A MAN SIZE JOB.

Charles G. Dawes, Owen D. Young and Henry M. Robinson, the American members of the committee appointed by the Allied Reparations Committee to investigate German finances with a view to arriving at a settlement of the reparations tangle, are undoubtedly tackling the biggest job in the world today.

Citizens of the United States, after reading opening statement of General Dawes in Paris as chairman of this committee, should be thankful that in these days of complicated political problems a common, everyday American could stand up before a group of European diplomats and cut right to root of present trouble, as Dawes did in his remarks.

Mr. Dawes' opening statement should be read in every school house in the United States, so that the younger generation could hear a bit of real hard-boiled American reasoning that would be comparable to statements issued by our great national leaders who have made American history since the Revolution.

It is well for the American people to keep in mind the fact that men like Dawes, Young and Robinson are characters who can develop only in a free country, unhampered by the rule of thumb laid down by too much aristocracy and official red tape. They are men who have come up from the ranks. They are men who have worked their own way. They are men to whom merely from the standpoint of representing wealth, means nothing. They are men who out of courtesy of deference to the royalty of Europe, might doff their hats, but so far as being awed or impressed by foreign diplomats or rulers with rows of decorations on their coats, all that means nothing to them.

And as a Frenchman says about Dawes, "He is one whom you cannot do."

THE WHITE MAN'S BURDEN.

Public ownership of public utilities and operation of the same without profit is a beautiful dream, but few people stop to think what it might mean.

The cities have their hands full

now managing, financing, taxing themselves and raising money to handle all that is expected of them under present conditions.

They must pave streets, build sewers, maintain parks, clean streets, conduct public schools, employ police and fire departments, and support hospitals and jails.

Add to this the management of street railroads, telephone systems, gas plants, electric lighting, children's play grounds, municipal dance halls, public auditoriums, golf links, and numerous other things proposed, and you double the taxpayer's burdens.

The payrolls and financing of all public utility enterprises would exhaust the credit and taxing power of municipalities.

Is not the present system of using both private and public credit, private and public enterprise under sound public regulation a better system, and does it not lead to a maximum of community development?

If it were all loaded upon the general taxpayer would it not be a staggering burden and destroy enterprise an initiative?

CRUSH INITIATIVE—KILL A NATION.

Lenine is dead in Russia after a brief but stormy career as ruler of that country.

In England a labor government is to guide the destinies of that great nation.

What the outcome of Lenine's teachings will be, no one can say. What the change of control in England will produce, no one can forecast. This much is certain, however, and has been proved by past experience: When a reformer or radical agitator starts out to rule the world he finds certain established rules and practices developed because of the inborn traits of human nature, and he cannot do just as he pleases.

A government that crushes and kills ambition in the individual will not progress. A government that encourages initiative with its reward for energy will progress. Lenine's policy wrecked Russia and a similar policy in England would wreck that nation.

Neither labor nor capital can be a dictator to the extent of crushing individual activity, without bringing about its own downfall.

LIABILITY SHOULD ATTACH FOR FIRE CARELESSNESS.

There are not nearly so many fires in Europe as in United States, and it has been demonstrated in this country that by watchfulness damage from flames can be reduced.

The great manufacturing corporations do not suffer so much from fire now as they did at one time. This is especially true of the cotton mills. What watchfulness will do to prevent destruction of property by fire was also shown in France during the war. Hundreds of millions of dollars worth of supplies for the American expeditionary forces were stored in huge wooden buildings.

Fire-fighting equipment like that used in American cities was not available. Yet this property was thoroughly protected from flames just by the use of care, enforced by army discipline.

There are a few simple suggestions which, if generally followed, would save us from the greater part of our annual fire loss. Matches and cigarettes should not be tossed about heedlessly.

Fire extinguishing apparatus should be installed wherever there is a possibility of flames appearing. Inspections should be made of property exposed to fire hazard.

In buildings where many persons are employed fire drills should be held so that in case of emergency all can be removed to safety quickly and steps taken promptly for extinguishing the flames.

Even if you are indifferent to your own safety and are willing to run the risk of the destruction of your own property by fire, you have no right to endanger the lives and property of your neighbors.

Dock Glover Confesses Killing Father

(continued from page one)

the door, leaving a small opening through which he then shot his father. He said his mother was not awakened by the firing of the shot gun but was awakened by the struggles of his dying father.

The boy stated that he was sorry immediately for what he had done, and went to call the family physician, whose home is in Calvert, some 10 or 12 miles from their home. He also went to a neighbor and said that some one had murdered his father.

When Glover was asked by the sheriff why he shot his father he said he had not been good to him.

Mrs. Ora Lee Glover, mother of the boy, also stated, officers said, that her husband had not been kind to them and that he would not let them have any of his money but spent it for his own pleasure.

The examining trial will be held within the next few days. District Judge John Watson probably will call the grand jury together early next week to investigate the case.

J. E. Glover was 53 years old and had resided in Milam county about 11 years, coming to this county from Limestone county.

It is said that he was superstitious of banks and that he never kept any money in banks but is reported to have kept considerable sums of money at his home. Sheriff Rogers said that the man had \$1500 when he was killed and that the wife has this money in her possession at this time.

He was hit with a 20 gauge shot gun, the charge entering the left side of the face, tearing away a portion of the head. He lived about 30 minutes after he was shot. Dr. W. J. Fontaine, physician at Jones Prairie was called to the home and administered to the dying man.

At the office of Drue S. Rogers, sheriff, it was said this afternoon that examining trial for Dock Glover, would be held Thursday or Friday. District Attorney A. J. Lewis is now in the trial of Ed. Beard of Thordale for the murder of Robert Caffey there in 1923.

Mrs. Ora Lee Glover and son Lindsey Glover are held in connection with the case. Dock Glover has been charged with murder and it was said by Sheriff Rogers this afternoon that a signed confession had been obtained by himself and the district attorney in which the boy said he placed the shot gun to the head of his father and snuffed out his life.

The boy told the story with a smile of defiance on his face, charging that his father had been mistreating him. He said he had to work hard in the field had no clothes or little civilized advantages.

Alex Skovgaard Noted Violinist Is Coming

(continued from page one)

was half finished and the audience showed its appreciation by round after round of applause.

Probably the best selection rendered by Skovgaard was "Sierra Morena," which he composed himself. This was the last number on the program but after it was rendered the audience gave several encores and in every instance Skovgaard responded. Another beautiful selection was the "Indian Snake Dance," by Cecil Burleigh.

Alice McClug-Skovgaard is a finished artist at the piano and impressed the audience as much as her husband. The best received selection rendered by her was the "Frolic of the Waters," by Bavel. The selection was so realistic that one could almost imagine sitting on the shore with the waves lapping about his feet, then a swift breeze—then a stillness—and then the dashing of angry waves on the shore.

Birthplace of Savior Described by Holy Land Lecturer

(continued from page one)

vastation wrought in France by the Germans, he said, was perhaps the most criminal vandalism in the history of the world.

The party went to the Holy Lands and Mr. Craig has pictures of Nazareth, Jerusalem and the ruins of Jerico and many others. The Garden of Gethsemane where Jesus prayed on the night before the troops of Pilate laid hands on him, is among the interesting pictures.

The exact spot where the old rugged cross that hoisted the body of Christ on the day of his crucifixion is shown with its background of ruins, spires and tombs. From the place of the skull known as Golgotha the body of Jesus was taken to the tomb of Joseph and pictures of this tomb was made by Mr. Craig. Inside the tomb is shown the slab of marble and the stone bier where the body of Jesus lay when they had taken him lifeless from the cross, and where three days later he rose from the dead.

The tomb of Lazarus whom Jesus raised from the dead is shown. In Bethlehem where the manger was situated in which Mary lay the babe in swaddling clothes is preserved by the Roman Catholic church and over the very spot is erected an altar from which incense in golden vessels is burning every hour of the day and night.

The party went to the River Jordan and stood at the very spot where nearly two thousand years ago Jesus was baptised by John the Baptist. The little company of Baptist leaders standing with uncovered heads where the slow current of the Jordan swept by lifted their voices in the stirring refrain of the song "On Jordan's Stormy Banks I Stand."

All that remains of the city of Jerico is shown in a desolate photograph taken by Mr. Craig. The mount on which Jesus stood to preach his great sermon is shown in the pictures and also the great precipice in the wilderness where Jesus was tempted of Satan after he had been Baptised. The wilderness country from whence came John the Baptist preaching is also shown and described.

Control of the holy places is largely in the hands of the Roman Catholics and the Mohammedans.

The country is plagued with poverty and everywhere is shown desolation and lack of enlightenment which Christianity has brought to the world in all save the country of its origin.

Mr. Craig declared that the movement among the Jews for a return to Palestine is a political movement at this time and that the movement is making no progress, few Jews returning to the land to possess it. As to the belief in the final gathering of the Jews to Palestine for the coming of the Messiah the speaker could not prophesy, but said that the present movement is a political movement.

PRESBYTERIAN CHURCH.

The following are going to take hold of the Boy Scout movement for the church, Messrs. Chas. Terry, G. W. Newton and Drayton McLane. Mr. Terry will be the chief scout

EVANS' Corner

George Peoples, Hervie Rouse and W. F. Scales Thorndale citizens, are attending court in Cameron.

Salts Fine for Aching Kidneys

When Back Hurts Flush Your Kidneys as You Clean Your Bowels

Most folks forget that the kidneys, like the bowels, sometimes get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidneys active and clean and the moment you feel an ache or pain in the kidney region begin drinking lots of water. Also get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and is intended to flush clogged kidneys and help stimulate them to activity. It also helps neutralize the acids in the urine so they no longer irritate, thus helping to relieve bladder disorders.

Jad Salts is inexpensive; makes a delightful effervescent lithia water drink which everybody should take now and then to help keep their kidneys clean. A well-known local druggist says he sells lots of Jad Salts to folks who believe in trying to correct kidney trouble while it is only trouble. By all means have your physician examine your kidneys at least twice a year.

ELECTION NOTICE.

WHEREAS, the Ordinances of the City of Cameron require the holding of the regular annual election of officers for the City of Cameron, Texas, for the year 1924;

THEREFORE, be it resolved by the City Council of the City of Cameron, that an election be held in said City of Cameron on the 1st day of April A. D. 1924, the same being the first Tuesday in said month for the purpose of electing the following officers, to-wit:

Mayor, Secretary and Treasurer, City Attorney, Assessor and Collector, Marshal and five Aldermen; and it is so ordered.

Said election shall be held at the

Aero-Propeller Shaft Installations

DESIGNERS and builders of aero-propeller-driven craft, such as sleds and boats, are often handicapped by the lack of a suitable but cheap method of installing the propeller shaft. If advantage is taken of standard automobile parts, however, a very neat and close-coupled arrangement, which will give good service and operate efficiently, can be made at a minimum of cost and labor.

Front and rear-wheel hubs from a light car are used to form the main parts of the installation together with a special shaft and a couple of sprockets. The shaft design is a combination of that of a front-axle spindle and the outer end of a rear-axle spindle. Between the two parts is a pad or shoulder for the seat of the driven sprocket.

The shaft must be carefully and accu-

The front wheel hub, minus the outer flange, is then slipped on, the ball cones adjusted so as to allow the shaft to run freely without any shake, and the locknut tightened and fastened with a cotter pin. The regular hub cap is used, filled with good grease, just as in the car.

rately turned from a solid piece of good machinery steel; the rear end is turned and threaded to the same dimensions as the front wheel spindle of the car from which the hub is taken, and the seats for the ball races must be held very carefully to size. The front end is turned to fit the rear-wheel hub, threaded for the nut, and keyseated. The seat for the sprocket may then be turned, keyseated, and the thread for the locknut cut.

The hub that carries the propeller is a rear-wheel hub, as stated above, and it is fitted with a second flange, made out of another hub, which is machined away until a flange is left that will pass over the turned portion of the hub proper.

The propeller hub is drawn up on the tapered portion of the shaft, as in the car, and locked by means of a nut, washer, and cotter pin. The propeller is clamped between the flanges by six through bolts

of 3/8-in. diameter, the sliding flange allowing for a wide variation in the thickness of propeller hubs. A hub cap is screwed on the forward side of the hub, to present a neat and finished appearance.

The key that holds the sprocket should be large and set deeply, as it carries all the motor torque.

Two heavy wooden uprights, meeting at the top to form an inverted vee, are bolted to the sills of the frame, and straddle the body of the front-wheel hub as shown. Four 3/8-in. bolts hold the tops of the uprights firmly to the hub. Angular braces, made of 2-in. pipe, are also fitted, the ends being flattened and drilled for the bolts. The propeller should be balanced before installation, to insure vibrationless running.

The hub cap should be filled with good grease to insure perfect lubrication, and refilled at frequent intervals.

Use of Gas to Trap Animals Is Suggested by Edison

At the suggestion of Thomas A. Edison, the inventor, army experts are seeking to devise some means for using poison gas in connection with trapping so that wild animals will be instantly killed instead of lingering for hours in torture. The use of electricity in the traps was declared to be commercially impractical. Therefore, it was suggested that a chemical might be so placed as to be released when the trap was sprung.

Million Homes for Workmen Needed in the U. S.

About 1,000,000 more houses are needed in the United States to relieve the present shortage, investigators studying the problem report. In spite of the various "building booms" in many parts of the country, only one city shows a surplus of residence buildings. It is held that the type of houses for the workman must be changed, so as to bring about cheaper construction. This alone, it is said, would increase the proportion of home-owners by 30 per cent. Building codes, it is contended, must also be modernized.

next week which one of these Sunday's will be the one on which we begin.

LAND FOR SALE—177 acres panhandle well improved cotton farm, 4 miles from Sudan, Texas, on Santa Fe railroad, 150 acres in cultivation, fine water and improvements. On account of other business will sell \$1,000 cash and balance on terms to suit purchaser. Address owner, Box 211, Lorenzo, Texas.

FOR SALE—My house and lot. L. G. Roberts. 27 tf.

ELECTION NOTICE

WHEREAS, the Ordinances of the City of Cameron require the holding of the regular annual election of officers for the City of Cameron, Texas, for the year 1924;

THEREFORE, be it resolved by the City Council of the City of Cameron, that an election be held in said City of Cameron on the 1st day of April A. D. 1924, the same being the first Tuesday in said month for the purpose of electing the following officers, to-wit:

Mayor, Secretary and Treasurer, City Attorney, Assessor and Collector, Marshal and five Aldermen; and it is so ordered.

Said election shall be held at the City Hall, and the following named persons are hereby appointed managers of said election: Alex Triggs, presiding judge, and such other assistants and clerks as shall be appointed by said Alex Triggs to assist in accordance with law. The manner of holding said election shall be governed by the laws of the State of Texas, regulating general elections.

A copy of this order, signed by the Mayor of said City shall serve as a proper notice of said election and the Mayor is directed to cause notice of said election to be posted at the place designated for holding said election, and by printing in the Cameron Herald for at least thirty days prior to the date of said election.

H. M. HEFLEY.

Passed at a regular meeting of the City Council of the City of Cameron, Texas, on the 15th day of January A. D. 1924.

Approved January 15th, A. D. 1924.

J. B. WHITE, Mayor, City of Cameron, Texas.

Attest: R. D. BROWN, 41-42 Secretary, City of Cameron, Texas

CONSTABLE'S SALE

THE STATE OF TEXAS County of Milam.

By virtue of a certain Writ of Execution issued out of the Honorable Justice Court of Precinct No. 1,

Milam county, on the 8th day of February 1924, by J. M. Ralston, Justice of the Peace of Precinct No. One of said Milam county against Marshall E. Weems for the sum of One Hundred Sixteen and 19-100 (\$116.19) Dollars with 10 per cent interest per annum from Jan. 28th, 1924 and \$11.61 attorney's fees and costs of suit, in cause No. 2109 in said Court, styled Robert McLane Company a corporation, versus Marshall E. Weems and placed in my hands for service, I Chas. Sens as constable of Precinct No. One, Milam county, Texas, did on the 9th day of February 1924 levy on certain Real Estate, situated in Milam county, described as follows, to-wit:

All of the right, title and interest of the said Marshall E. Weems in and to the following described tract of land; all that certain tract of land in Milam county, Texas, out of the A. B. Hayworth league grant and is that part of the 156 1-2 acres set apart to the said W. S. Massengale in the partition of the said tract between himself and the heirs of T. L. Massengale and contains 100 1-2 acres and begins at S. E. Cor. of the 45 acres surveyed out of said tract for A. L. Massengale, John C. Massengale, Emma Williams and Joanna Harrell on 28th July 1876, a stake for N. E. Cor. of this from which a P O 3 inches in dia. brs. N. 4 W. 8 3-4 vrs. and another 6 inches in dia. brs. S. 68 W. 15 1-2 vrs.; thence S. 19 W. 37 1-2 vrs. to N. E. Cor. of 11 acres surveyed for H. M. Massengale and now owned by said Harrell minors for S. E. Cor. of this; thence N. 71 W. 1524 vrs. to N. W. Cor. of said 11 acre tract for S. W. Corner of this; thence N. 19 E. 372 1-2 vrs. to S. W. Cor. of said 45 acres for N. W. Cor. of this a stake from which a P O 9 inches in dia. brs. N. 48 E. 8 1-2 vrs.; thence S. 71 E. 1524 vrs. to the place of beginning and being same land described in Vol. 82 page 211 deed records of Milam county, Texas, and levied upon as the property of said Marshall E. Weems, and on Tuesday, the 4th day of March, 1924, at the Court House door of Milam county, in the City of Cameron, Texas between the hours of ten a. m. and four p. m. I will sell said Real Estate at public vendue, for cash, to the highest bidder, as the

property of said Marshall E. Weems by virtue of said levy and said Writ of Execution.

And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately pre-

ceding said day of sale, in the Cameron Herald a newspaper published in Milam county.

Witness my hand, this 9th day of February 1924. 41-46

THE ETHICAL SERVICE BUSINESS RENDERS

BY J. H. PUELICHER

President of the American Bankers Association

I sometimes think we lay too much stress on the technical efficiency of our business instrumentalities and too little on their moral services.

J. H. Puelicher

Is it enough to say to our radical opponents of the present capitalistic order that it effectively feeds and clothes and houses and furnishes us with physical comforts and pleasures and therefore it is good? That is not enough. They can rightfully tell us that, even though a system may minister to our physical well-being, if it stunts us morally, if it does not positively make us better ethically, it is an inadequate system.

The general answer to this assertion is obvious. The very fact that our industry, commerce and finance serve us so amply with the materials and means for physical well-being gives us the opportunity to build and support our churches, to foster the arts, to develop our great educational system,—to be kind to one another.

But need we deal in generalities? Do we not find in the direct effect of our business upon the individual much to improve his ethical standards? To toughen his moral fiber? Is it not good for the personal character of the race to do business as we are now doing it?

Let us take the business of banking, for example. Is it a mere mechanism or is it a vital moral force? Does it do more than, by facilitating production, raise the physical standard of living, or is there anything inherent in the manner and methods of banking that raises the moral standard of living as well?

Nine-tenths of our business is done by means of credit. The great bulk of that credit is obtained from the banks. It is obtained from the banks because men have character,—because they are honest, because they keep faith,—because they can be trusted.

If they did not have these qualities they could not do business with credit, they could not do business at the banks. We say banks deal in credit. That is but a way of saying they deal in honor and honesty. They build the business structure with the faith of man in man.

The part banking plays in our business life is growing. That means that the faith of men in each other is growing. The more men who come to the banks with characters that entitle them to credit,—the more men who realize that to gain credit at the banks, they must possess themselves with characters that win them unquestioned trust, the higher becomes the ethical standards of the nation.

Is not this a great moral service that banking renders? It is a greater justification for our present financial

system than even its wonderful efficiency in providing us with the material things of life. No greater service could be rendered the nation.

AMERICA'S NEW PLACE

Many Americans fancy that, because labor is well employed and our industries have been reporting substantial earnings and improvement over the depression period, normalcy has been restored. The truth is, what we must consider normal in the future will be an entirely different thing from what was considered normal prior to the war. One reason is, our new place in the world as the leading creditor nation. That change is a permanent one. We are not going to return to the old position of debtor nation. Bankers in the agricultural communities have come to the conclusion that we cannot afford to maintain an attitude of isolation and that opinion is not a personal one. The men I have talked with are voicing the ideas of the people with whom they have daily business contact.

A great many politico-economists have warned against America's entrance into the European situation, asserting that our foreign trade makes up less than 20 per cent of our production, and therefore is too small an item to be vital or to risk our investment in. They forget, and most people who have listened to them forget, that the unimportant 20 per cent is the difference between full employment of our industries and labor and much unemployment and business depression. If a manufacturing enterprise is running at 90 per cent of capacity, it may be making a fairly good showing of earnings, but it is not running at normal and is not earning the margin which it should earn in order to be fully prosperous. It appears obvious that we shall have to build up foreign investments in this country. But it will be necessary to go slowly in the matter of foreign investments. There must be assurance that what ever we loan will be used for productive purposes.—William E. Knox, Second Vice-President, American Bankers Association.

FIRST METHODIST CHURCH.

We appreciate the good attendance but there is not yet the loyalty to the church and Sunday school services that there should be among our people. Why not join a Sunday school class and be a regular attendant?

Our evening service will begin at 7:30 instead of 7:15.

On Wednesday night Feb. 20, the Men's Brotherhood will meet in the basement of the church. A good program is assured. We expect to have at least one hundred and fifty men out. Buy your ticket early.

We will begin our revival meeting on last Sunday in April or the first Sunday in May. We will likely be in a position to announce definitely

TIRE STORE

Make our store your stopping place while in Cameron. You will find us ready to give service and ready to see that the service satisfies you.

FRED HENRY RECOVERS FROM ILLNESS—IS BACK ON THE FIRING LINE.

After having successfully defended his title to further lease on life in a battle with the king of terrors, landing a knock out in the ninth round after the challenger had repeatedly battled him to the ropes and at times had him hanging on, Fred Henry, is again able to be up and about his duties, following a siege of illness.

Mr. Henry's survival will be received with acclaim by his many friends. He is mayor of Santa Fe town, fraternalist, income tax expert, insurance writer, sage prophet and scholar so that his recovery will restore to health again a manifold, versatile dynamo of human energy to make its daily contribution to the life of the community.

He has made a study of income tax laws and his service is available to his friends at all times in computing returns.

PARENT-TEACHERS.

The Cameron Parent-Teachers' Association met at Grammar School Wednesday, Feb. 6, with a fair attendance.

Mrs. George Graves presided and the interesting and inspiring program was arranged to observe Child Welfare Day, and to celebrate the 26th birthday of the National Congress of Mothers.

This is the largest body of organized women in the world and has contributed directly to the uplift and safeguarding of children for a quarter of a century.

Misses Wiley and Johnson's pupils gave a well executed program.

The Children's Code of Morals was especially good.

Miss Bladys Henry, County Demonstration Agent for women, told how her work was really Child Welfare Work, and asked our sincere co-operation.

The next meeting will be at Yoe

High School, Wednesday February 24th. Miss Williams will preside and the program will be a help to all mothers interested in their children's school.

NOTICE. SHERIFF'S SALE. THE STATE OF TEXAS, County of Milam.

By virtue of an Alias Execution issued out of the Honorable District Court of McLennan County, Texas, for the 74th Judicial District of Texas, on the 30th day of January, A. D., 1924, by Clerk thereof, in the case of The Shear Company vs. Empire Fuel Products Corporation, et al. numbered 5677 on the docket of said court and to me as sheriff directed and delivered, I, as sheriff of Milam county, Texas, on the 4th day of February, A. D. 1924 levied upon the following described property situated in the County of Milam, State of Texas, as follows, to-wit:

That certain lot and parcel of land lying and being situated in Milam county, Texas, out of the James Shelton survey and more particularly described as follows:

FIRST TRACT—Being a part of 50 acre tract conveyed to Willie Nelson by M. H. Flemming by deed of record in Book 107 page 578 of the Milam County deed records; beginning at the S. E. cor. of said 50 acre tract; thence N. 19 E. 265 vrs. to the N. E. cor. of the said 50 acres, thence N. 7. W. 766 vrs. to the N. W. Cor. of this in the N. line of said 50 acres and the East line of the G. C. & S. F. Right-of-way; thence with the E. line of said right-of-way S. 40 E. 515 vrs. to S. W. cor. of this in the S line of said 50 acre tract; thence with the said south line S. 70 E. 322 vrs. to place of beginning, containing 25 1-2 acres of land, more or less, and being all of said 50 acres lying on the East side of said railroad and being the same land conveyed to J. P. Sparks by Willie Nelson et ux by deed of record in Vol. 155 pages 211 1-2 of the Milam county deed records.

SECOND TRACT—A part of the James Shelton headright survey bounded as follows: Viz: Beginning at the N. E. Corner of a survey made for H. C. Moss out of the said Shelton survey for the N. E. Cor. of this survey from which a B J hrs. N. 16 E. 1 5-10 vrs. and a B J hrs. S. 79 W. 9 vrs.; thence N. 71 W. 658 vrs. to the N. E. Cor. of survey made for James Thompson in said Shelton headright survey for the N. W. Cor. of this survey, from which a stooping P O hrs. S. 36 1-2 E. 5 3-4 vrs. another P O hrs. N. 79 W. 9 4-10 vrs.; thence S 19 W. 367 vrs. to

the N. W. Cor. of a survey made for A. S. Russell for S. W. Cor. of this tract; thence with the N. boundary line of said Russell survey 658 vrs. to his N. E. Cor. in the E. boundary line of said Moss survey the S. E. Cor. of this tract; thence N. 19 W. with the original East line of the James Shelton headright survey 867 vrs. to the place of beginning, containing 100 acres of land, and being the same land conveyed to J. P. Sparks by Mag Chance by deed of record in Vol. 154 page 538 of the Milam county deed records.

The lease and leasehold interests given and granted to J. P. Sparks by the parties herein mentioned, under the leases herein enumerated, to-wit: (a) Lease granted by J. M. Cave and wife on 72 acres of land, more or less, recorded in book 146 page 5 of Milam county deed records and in book 3 page 480 of the Milam county oil and gas lease records;

(b) Lease granted by J. B. Newton and Sons on 70 acres of land of record in Vol. 148 page 456 of Milam county deed records and in Vol. 3 page 475 of the Milam county oil and gas lease records;

(c) Lease granted by A. J. Cook to J. P. Sparks on 5 9-10 acres of record in Book 146 page 1 Milam county deed records;

(d) Lease granted by Richard Thompson and wife to J. P. Sparks on 59 acres more or less, of record in book 1, page 170, and book 3 page 466 of the Milam County oil and gas lease records;

(e) Lease granted by Willie Nelson and wife to J. P. Sparks on 24 1-2 acres by lease of record in Book 1 page 194 and in Book 3 page 479 of the Milam county oil and gas lease records;

(f) A lease granted by Joe Moore to J. P. Sparks on 50 acres of land, more or less, by lease of record in book 146 page 13 of Milam county deed records and in book 3 page 473 of the Milam county oil and gas lease records.

To each and all of which leases and their record reference is here made and same are made a part hereof for a complete and definite description of said lands and leases. (g) That certain lease and leasehold interest given and granted to B. Cox to J. P. Sparks upon 81 95-100 acres of land out of the N. W. Bush survey near the town of Milano, in Milam county, Texas, as such lease and lands are fully described in lease of record in Book 146 page 2 et seq. of the deed records of Milam county, together with mine, tools, equipment and appliances, dwellings, fixtures, commissary, stock and fixture, located at and upon said lands, together with each and all of the other

articles, appliances, fixtures and properties with all right and interest in and to the said railroad spur connecting said mine with the said Santa Fe railroad company.

In addition to the above described properties all personal property situated on the lands and leases above herein described, mining equipment, tools, appliances, fixtures, cars, buildings and other property including tracks, right-of-way or choses, together with each and every other article or property of any kind, in any way connected with the said above described premises; and also all of the right, title and interest of the said Empire Fuel Products Corporation held by it in and to a certain royalty interest of ten cents per ton on lignite mined on the properties conveyed or to be conveyed by the said Empire Fuel Products Corporation to J. P. Sparks of Rockdale, Texas, which said royalty interest is on all lignite sold or disposed of or purchased by the said Empire Fuel Products Corporation from the mines of said J. P. Sparks.

And I will proceed to sell the same for cash within the hours prescribed by law for sheriff's sales on the first Tuesday in March, A. D. 1924, it being the 4th day of said month, before the court house door of Milam county, Texas, in the town of Cameron, Texas, together with all interest therein and thereto had or held by the Empire Fuel Products Corporation, Adam H. Davidson and A. H. Winston, jointly and severally, to satisfy a judgment in the sum of \$4,818.44, with interest thereon at the rate of ten per cent per annum from the 12th day of December A. D. 1923, the date of said judgment and for costs. Said judgment being rendered in the District Court of McLennan County, Texas, 74th Judicial District of Texas in the cause aforesaid of The Shear Company vs. Empire Fuel Products Corporation, and judgment being in favor of the plaintiff therein. The Shear Company against the defendants therein, Empire Fuel Products Corporation, Adam H. Davidson and A. H. Winston, jointly and severally.

Given under my hand this the 4 day of February, A. D. 1924.

D. S. Rogers, Sheriff.

Successful Farming

--Demands the Best
of implements

No farmer can successfully farm his land or hope to make the best crop unless he is equipped with the best of farm implements.

With the opening of the farming season comes the demand for good Farm Implements. As always in the history of this business we have met the demands of the farmers of this county in stocking a great assortment of implements from the famous

J. I. Case and International Harvester Co. implement lines

Just received a full line of

CULTIVATORS, DISC HARROWS, CORN PLANTERS,

COTTON PLANTERS, TURNING PLOWS,

IMPLEMENTS SUPPLIES AND

ALL FARM NEEDS.

Get in touch with this store for your implement needs soon and insure good farming and better yields on your farms for 1924

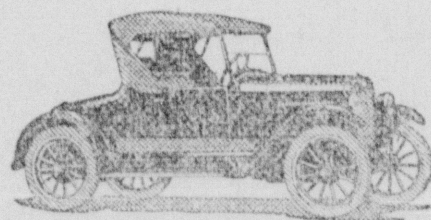

A new line of summer hardware such as Water Coolers and other important household needs in Hardware are in stock for you.

Goodrich Tires, Yale Storage Batteries.

GARDEN AND FLOWERS

The glories of the springtime are the beautiful, bright-hued flowers and delicate green leaves that mutely attest the joy of re-awakening nature after the dull drab days of winter. But we will not be privileged to exult in the possession of these harbingers of spring unless we begin now to plan for their reception.

If one would have graceful daisies, gorgeous poppies, beautiful gladioli and dainty sweetpeas, delighting the esthetic sense during the spring and summer days, now is the time to prepare the soil. The leading authorities maintain that therein lies the success of all flower culture.

All plots for flowers should be plowed deep and the sod turned up during January, that the late winter rains and freezes may properly pulverize and season the soil. This is also the time to plant all trees, shrubs and to attend to the pruning and trimming of shade and fruit trees, hedges and rose bushes.

Everyone can have a wealth of sweet peas, poppies, gladioli, snapdragons, daisies, larkspur, nasturtiums, etc., for spring and summer, if the seeds are planted properly in the month of February.

Sweet peas must be planted before the middle of February, that they may be firmly rooted and have a good "stand" that will survive the warmest spring and early summer days. Select a well drained, open location and thoroughly prepare the soil, adding a little dairy fertilizer and some loamy sand as it is imperative that the soil be porous and pliable.

Open a trench six or eight inches deep—don't make the mistake of heading them for China. Place the peas three or four inches apart and cover them with about four inches of earth. After three weeks, when the little plants begin to peep out, gradually add more earth, as they grow until the trench is filled. Place the wires or trellis supports in place when the plants have attained a growth of two inches. If kept properly watered and weeded, a luxurious crop will be the reward.

To insure a fine growth of nasturtiums, they should be planted soon after the middle of February in trenches not more than five inches deep. Daisy seeds, larkspur, calendulas, snapdragons, cornflowers and poppies should be in the ground by the last week in February. Sow the poppy seed where they are to remain, as they do not stand transplanting. Plant them thinly preferably in cloudy weather or after a shower, barely cover the seed, press down firmly and they will come up in a week. Frequently sowing will insure a succession of blooms. If the flowers are plucked before expanding, they will last much longer.

The interest developed in the gladioli during recent years is tremendous. As a cut flower during the summer and autumn they hold a place that can not be taken by any other, save the rose. There are a number of beautiful varieties, but they should not be planted in mixture but in separate plots. Probably the most popular ones are "America," a

beautiful soft fleshtint orchid like in its coloring and texture: "Mrs. Francis King," a flame color; "Schwabens," a clear canary yellow, and there is a lovely apricot and the "Myrtle," which is a clear delicate rose-pink.

The gladioli bulbs must be planted not later than the first week in February. They must be planted at least one foot apart and in well-prepared soil, that is a well-balanced mixture of sandy loam and black earth enriched with fertilizer—leaf mould is preferable.

About the middle of March, if the weather is warm, petunias, zinnias, periwinkles, asters, phlox, cornflowers and other such annuals should be planted to insure a riot of sturdy flowers that will withstand the summer heat.

More attention should be given to a finer appreciation of color harmonies in the flowers cultivated. If red flowers are kept out of the border beds in March and April and only allowed in May, when jonquils, tulips and other bright ones are gone, there will be no discords—for the pinks and blues, yellows and white of the other early flora will blend more perfectly.

CAMERON STUDENTS ON UNIVERSITY HONOR RACE.

Announcement has just been made by H. Y. Benedict, dean of the College of Arts and Sciences at the University of Texas, of the names of students appearing on the honor roll for high scholastic standing obtained in their college courses during the fall term just past. The object of this honor list is to commend officially the one-tenth of the student body whose records rank them scholastically above the remaining nine-tenths. In compiling the list both the quantity and the quality of the work done is considered, and the students are placed in five groups to their rank.

Students from Cameron whose work for the fall term entitles them to a place on this list are:

Summa Cum Laude—Mildred Chambers.
Cum Laude Ampla Et Magna—F. J. Cox.
Magna Cum Laude—Mary Jo Harlan.

COL. SIMMONS RESIGNS AS EMPEROR OF KLAN

DISPOSES OF INTERESTS IN ORGANIZATION FOR \$145,500.

Atlanta, Ga., Feb. 12.—Official announcement was made Tuesday from the imperial palace of the Knights of the Ku Klux Klan that Col. William Joseph Simmons, emperor and founder of the klan, has resigned as emperor and as a klansman and disposed of all his interests in the order for a consideration of \$145,500 in cash.

At the same time imperial klan officials declared they had received at the head of a new organization information, through private sources that Col. Simmons has placed himself known as the "Knights of the Flaming Sword."

Official announcement of Simmons' withdrawal from the invisible empire stated that in a contract concluded Saturday, Simmons disposed of all his copyrights and royalties in the Klan and renounced his annuity of \$1,000 a month.

Under terms of the contracts he agreed to cease all apposition to the Ku Klux Klan and the regime of Dr. Hiram W. Evans and pledged himself against participation in any movement to "disorganize, disrupt or in any way interfere with or cause dissatisfaction among members of the klan."

"Klankrest," the home which the klan gave Col. Simmons years ago on Peachtree Road, is to be retained by him, the agreement is said to provide. The cash payment was in lieu of all his copyrights and royalties in it was agreed.

The new organization, the "Knights of the Flaming Sword," according to officials at the imperial klan palace here was formally organized with Col. Simmons at its head at a meeting held in Jacksonville, Fla., on Monday and which was attended by Col. Simmons and klansmen. There was severe criticism of the Evans regime at the meeting, the imperial officers here declared their information said.

Col. Simmons left Atlanta for Florida on Sunday, following conclusion of his transaction with the klan here on Saturday.

Under the terms of the contract between the emperor and the klan,

which was approved by the imperial kloneilium and signed by Col. Simmons, his wife and Dr. Evans as imperial wizard, all pending litigation between Simmons and Evans factions is to be dismissed. There are several suits pending involving receivership petitions and legal proceedings to oust the Evans regime.

It is understood that the amount paid Col. Simmons, \$145,500, was arrived at by an actuary who computed Col. Simmons' expectancy of life and figured the total amount of annuities he would receive if he and wife lived out their full expectancies.

It is understood that Col. Simmons offered to return to the klan his home on Peachtree road, but this was declined.

Formal announcement of the consummation of the transaction and of the meeting in Jacksonville was formed, was made by Paul S. Etheridge, official counsel for the klan and chief of staff under Dr. Evans.

TRY SULPHUR ON AN ECZEMA SKIN

Costs Little and Overcomes Trouble Almost Over Night

Any breaking out of the skin, even fiery, itching eczema, can be quickly overcome by applying Mentho-Sulphur, declares a noted skin specialist. Because of its germ destroying properties, this sulphur preparation instantly brings ease from skin irritation, soothes and heals the eczema right up and leaves the skin clear and smooth.

It seldom fails to relieve the torment without delay. Sufferers from skin trouble should obtain a small jar of Rowles' Mentho-Sulphur from any good druggist and use it like cold cream.

LEGION PLANS GREAT MEMORIAL TO WILSON.

Nashville, Tenn., Feb. 12.—A national memorial to Woodrow Wilson costing not less than \$25,000,000 and surpassing in grandeur and magnificence the stateliest built for any ruler or potentate on earth represents a movement initiated here yesterday by the Tennessee division of the American Legion.

John R. Quinn, national commander of the legion who was present, asked the resolution's adoption and will pass it on to the heads of the organizations in the various states. He will likewise present the matter to the executive committee of the legion when it meets at Indianapolis next May to be followed if adopted, by a campaign for funds, the most stupendous for a similar purpose the

world has ever known, officials said. The memorial would be located on the banks of the Potomac where the war president broke his health and gave his life.

BASKETBALL TOURNAMENT ROCKDALE FEBRUARY 22

MEETING WILL DECIDE CHAMP- SHIP FOR THE GIRLS' TEAMS.

Plans are well under way for the holding of a county tournament in Rockdale February 22 to decide the Girl's basketball championship.

No definite plans can be made, however, until the number of teams entered is known. Cards were mailed to twenty schools the first of the week and it is expected that at least twelve of these will enter the tournament.

The final date set for receiving entries is Saturday, Feb. 16th. Schools desiring to enter should send their entries to H. B. Hughes, county athletic director, at Rockdale, before this date.

No fee will be charged to enter, but a school must be a member of the Interscholastic League. A handsome mounted banner will be presented to the winner of the tournament. A similar banner will be presented to Yarrellton, winners of the boy's championship in the tournament held here Feb. 1st and 2nd. The outside referees will be secured to officiate the games here.

C. F. GREEN OPENS INSURANCE OFFICE.

Charlie Frank Green, son of Mr. and Mrs. C. N. Green, has opened an insurance office in Cameron and will represent two well known and reliable companies. The Continental Insurance Company of New York and the Colonial Fire Insurance of Hartford.

Charlie Frank is a capable, energetic young man, a combination that spells success.

Your attention is directed to his card found elsewhere in these columns.

LAND FOR SALE—177 acres panhandle well improved cotton farm, 4 mile, from Sudan, Texas, on Santa Fe railroad, 150 acres in cultivation, fine water and improvements. On account of other business will sell \$1,000 cash and balance on terms to suit purchaser. Address owner, Box 211, Lorenzo, Texas.

B. P. TURNER SALE WAS HELD TUESDAY WITH GOOD RESULTS.

At public sale in Cameron Tuesday of this week the last of the Bailey P. Turner estate property was sold. J. L. Jenkins purchased the land—550 acres at \$15.25 per acre. Two large diamond rings were sold, E. B. Phillips bidding them in at \$1605. for the two. W. H. Camp, of San Gabriel bought the gin property at \$1275.

E. A. Camp, the administrator, informs the Reporter that these final sales will just about bring the estate out even, paying the indebtedness of approximately \$47,000 that was hanging over it. This is thought to be a splendid result, as it was considered too heavily involved to pay out at the time of Mr. Turner's death.

I will be remembered that Mr. Turner lost his life in the flood of September, 1921.—Rockdale Reporter.

FOR SALE—One 1921 Ford Truck, see C. H. Clifton.

YOUNG FRIEND, IF GEORGE WASHINGTON COULD RISE FROM HIS GRAVE ON HIS BIRTHDAY THE 22ND OF THIS MONTH.

and see our cities at night lighted as brightly as day, hear the whirl of the electric car, talk over the wireless telephone, send a message by wireless to a ship far out at sea, examine his own bones with an X-ray, view the sunny plains and canals of Mars through a telescope, take a flight from America to Europe in an air ship, and return under the waters of the ocean in a submarine, get run over by an automobile going 90 miles an hour—But what's the use going back a hundred years? A system of shorthand and bookkeeping thirty years old is of but little use today.

As the steam ship has crowded out the sail boat, as the typewriter the goose quill pen and pokeberry ink, so have the famous Byrne Systems Bookkeeping, Business Training and Shorthand taken the place of the old systems, and The Tyler Commercial College with head of American Business Training schools. The reason is plain; they cut in half the time and cost of becoming an expert accountant or stenographer; they teach business as well as bookkeeping; they

make it possible for the student to graduate and begin earning while the student of others' systems is less than half through his course; they give the student a more thorough practical working knowledge—which means a higher salary, and The College has kept abreast the times and met the demands of the most exact-

ing business office.

These practical, modern, time-saving systems can be had in this section only in the Tyler Commercial College. You would not think of riding in a horse-drawn stage in preference to an automobile. Then why think of studying the old-fashioned systems of accounting and sten-

graphy when you can get the Byrne systems which possess such wonderful advantages that they enable the management of the Tyler Commercial to build the largest business training school in America, with an annual enrollment of more than four thousand.

FEED FOR EVERYTHING, FLOUR FOR EVERYBODY.

Esslinger Feed Store

Cameron, Texas.

Using Snowdrift in your own favorite recipe is the best way to find out how good Snowdrift is. Remember to add salt because Snowdrift is sweet, fresh, and unsalted.

MISS WHITFIELD'S recipe for SNOWDRIFT QUICK PIE CRUST

1/4 cup Snowdrift 4 tablespoonfuls water (approximately)
1 1/4 cups flour 1/4 teaspoonful salt

Sift flour and salt into bowl. Cut in Snowdrift lightly and add just enough water to hold together, working very lightly. Roll on floured board to thin sheet. Place on back of pie

pan and bake until rich brown in quick oven. Remove from back of pan, place inside of pan and fill with any cooked filling. This is a very flaky, light, tender pastry.

All Measurements are Level

YARRELTON BASKETBALL TEAM ARE CHAMPIONS

COUNTY LAURELS TAKEN BY PRUETT'S TEAM FROM YARRELTON.

On the local court last Friday and Saturday, in county tournament arranged by County Director of Athletics H. B. Hughes, of Rockdale, Coach Pruett's Yarrellton Giants won the undisputed county championship in basket ball by defeating Rockdale 10-4 and Sharp 9-8 in the finals. It was a well deserved victory, the winning team going through a stringent ordeal to cope the honors.

The "Giants" met strong opposition Saturday morning when facing Coach Hughes' Rockdale "Tigers." The score was 10 to 4, and the game was even tighter than that. Then with only an hour's rest the Giants met the gritty little Sharp five, emerging victorious only after playing an extra five-minute period to break the tie of 8-8. The Sharp team was the sensation of the tournament, and played wonderful basket ball in the final game. Although the smallest team entered, they were by far the fastest, and displayed the best passing and goal shooting of the meet. The team was greatly handicapped by the small size of its men.

Rockdale likewise threw a surprise into the tournament outcome by defeating Thorndale and Buckholts. The Tigers paved the way for Sharp to give Yarrellton such a hard game by giving the champions a tough battle Saturday morning. An injury to Blackburn probably saved the Giants from an even harder battle than they got.

In the first preliminaries Friday, Rockdale defeated Thorndale 8 to 7 using an extra five-minute period to turn the trick. Sharp had very little trouble disposing of Cameron 13 to 6, and Buckholts piled up the largest score of the tournament by defeating Jones Prairie 34 to 6. Yarrellton won from Gause, 24 to 13.

In the second round, Rockdale defeated Buckholts 20 to 7, and Sharp emerged victor over San Gabriel by a score of 12 to 8.

Then in the finals Saturday morning Yarrellton established her claim to the county championship by defeating both Rockdale and Sharp, 10 to 4, and 9 to 8, respectively.

Tiny Keen, A. & M. College athlete, officiated in all the games, his work being highly satisfactory to everyone concerned. A large crowd from all over the county attended the tournament, both days. Approximately 800 people witnessed the first day's games.

Visiting coaches declared themselves as well pleased with the manner in which the tournament was conducted, as well as with the board of courtesy and hospitality accorded. —Rockdale Reporter.

MAY PROVE FATAL

When Will Cameron People Learn the Importance of It?

Backache is only a simple thing at first;

But if you find 'tis from the kidneys;

That serious kidney troubles may follow;

That dropsy or Bright's disease may be the fatal end,

You will be glad to know the following experience.

'Tis the statement of a Cameron citizen.

Mrs. Kristina Werner, Noland

Avenue says: "For years, Doan's Pills have been my only kidney medicine. Whenever my back hurt, I couldn't do my work and sometimes I had dizzy spells, when I stooped to pick up anything. Doan's Kidney Pills have always stoppeel all this after I have taken them a short time. I have often told my friends how good Doan's are."

NOTICE.

SHERIFF'S SALE.

THE STATE OF TEXAS, County of Milam.

By virtue of an Alias Execution issued out of the Honorable District Court of McLennan County, Texas, for the 74th Judicial District of Texas, on the 30th day of January, A. D. 1924, by Clerk thereof, in the case of The Shear Company vs. Empire Fuel Products Corporation, et al. numbered 5677 on the docket of said court and to me as sheriff directed and delivered, I, as sheriff of Milam county, Texas, on the 4th day of February, A. D. 1924 levied upon the following described property situated in the County of Milam, State of Texas, as follows, to-wit:

That certain lot and parcel of land lying and being situated in Milam county, Texas, out of the James Shelton survey and more particularly described as follows:

FIRST TRACT—Being a part of 50 acre tract conveyed to Willie Nelson by M. H. Flemming by deed of record in Book 107 page 578 of the Milam County deed records; beginning at the S. E. cor. of said 50 acre tract; thence N. 19 E. 265 vrs. to the N. E. cor. of the said 50 acres, thence N. 7- W. 766 vrs. to the N. W. Cor. of this in the N. line of said 50 acres and the East line of the G. C. & S. F. Right-of-way; thence with the E. line of said right-of-way S. 40 E. 515 vrs. to S. W. cor. of this in the S line of said 50 acre tract; thence with the said south line S. 70 E. 322 vrs. to place of beginning, containing 25 1-2 acres of land, more or less, and being all of said 50 acres lying on the East side of said railroad and being the same land conveyed to J. P. Sparks by Willie Nelson et ux by deed of record in Vol. 155 pages 211 1-2 of the Milam county deed records.

SECOND TRACT—A part of the James Shelton headright survey bounded as follows: Viz: Beginning at the N. E. Corner of a survey made for H. C. Moss out of the said Shelton survey for the N. E. Cor. of this survey from which a B J brs. N. 16 E. 1 5-10 vrs. and a B J brs. S. 79 W. 9 vrs.; thence N. 71 W. 658 vrs. to the N. E. Cor. of survey made for James Thompson in said Shelton headright survey for the N. W. Cor. of this survey, from which a stooping P O brs. S. 36 1-2 E. 5 3-4 vrs. another P O brs. N. 79 W. 9 4-10 vrs.; thence S 19 W. 867 vrs. to the N. W. Cor. of a survey made for A. S. Russell for S. W. Cor. of this tract; thence with the N. boundary line of said Russell survey 658 vrs. to his N. E. Cor. in the E. boundary line of said Moss survey the S. E. Cor. of this tract; thence N. 19 W. with the original East line of the James Shelton headright survey 867 vrs. to the place of beginning, containing 100 acres of land, and being the same land conveyed to J. P. Sparks by Mag Chance by deed of record in Vol. 154 page 538 of the Milam county deed records.

The lease and leasehold interests given and granted to J. P. Sparks by the parties herein mentioned, under the leases herein enumerated, to-wit:

(a) Lease granted by J. M. Cave and wife on 72 acres of land, more or less, recorded in book 146 page 5 of Milam county deed records and in book 3 page 480 of the Milam county oil and gas lease records;

(b) Lease granted by J. B. Newton and Sons on 70 acres of land of record in Vol. 148 page 456 of Milam county deed records and in Vol. 3 page 475 of the Milam county oil and gas lease records;

(c) Lease granted by A. J. Cook to J. P. Sparks on 5 9-10 acres of record in Book 146 page 1 Milam county deed records;

(d) Lease granted by Richard Thompson and wife to J. P. Sparks on 59 acres more or less, of record in book 1, page 170, and book 3 page 466 of the Milam County oil and gas lease records;

(e) Lease granted by Willie Nelson and wife to J. P. Sparks on 24 1-2 acres by lease of record in Book 1 page 194 and in Book 3 page 479 of the Milam county oil and gas lease records;

(f) A lease granted by Joe Moore

to J. P. Sparks on 50 acres of land, more or less, by lease of record in book 146 page 13 of Milam county deed records and in book 3 page 473 of the Milam county oil and gas lease records.

To each and all of which leases and their record reference is here made and same are made a part here of for a complete and definite description of said lands and leases.

(g) That certain lease and lease hold interest given and granted T. B. Cox to J. P. Sparks upon 81 95-100 acres of land out of the N. W. Bush survey near the town of Milano, in Milam county, Texas, as such lease and lands are fully described in lease of record in Book 146 page 2 et seq. of the deed records of Milam county, together with mine, tools, equipment and appliances, dwellings, fixtures, commissary, stock and fixture, located at and upon said lands, together with each and all of the other articles, appliances, fixtures and properties with all right and interest in and to the said railroad spur connecting said mine with the said

Santa Fe railroad company.

In addition to the above described properties all personal property situated on the lands and leases above herein described, mining equipment, tools, appliances, fixtures, cars, buildings and other property including tracks, right-of-way or choses, together with each and every other article or property of any kind, in any way connected with the said above described premises; and also all of the right, title and interest of the said Empire Fuel Products Corporation held by it in and to a certain royalty interest of ten cents per ton on lignite mined on the properties conveyed or to be conveyed by the said Empire Fuel Products Corporation to J. P. Sparks of Rockdale, Texas, which said royalty interest is on all lignite sold or disposed of or purchased by the said Empire Fuel Products Corporation from the mines of said J. P. Sparks.

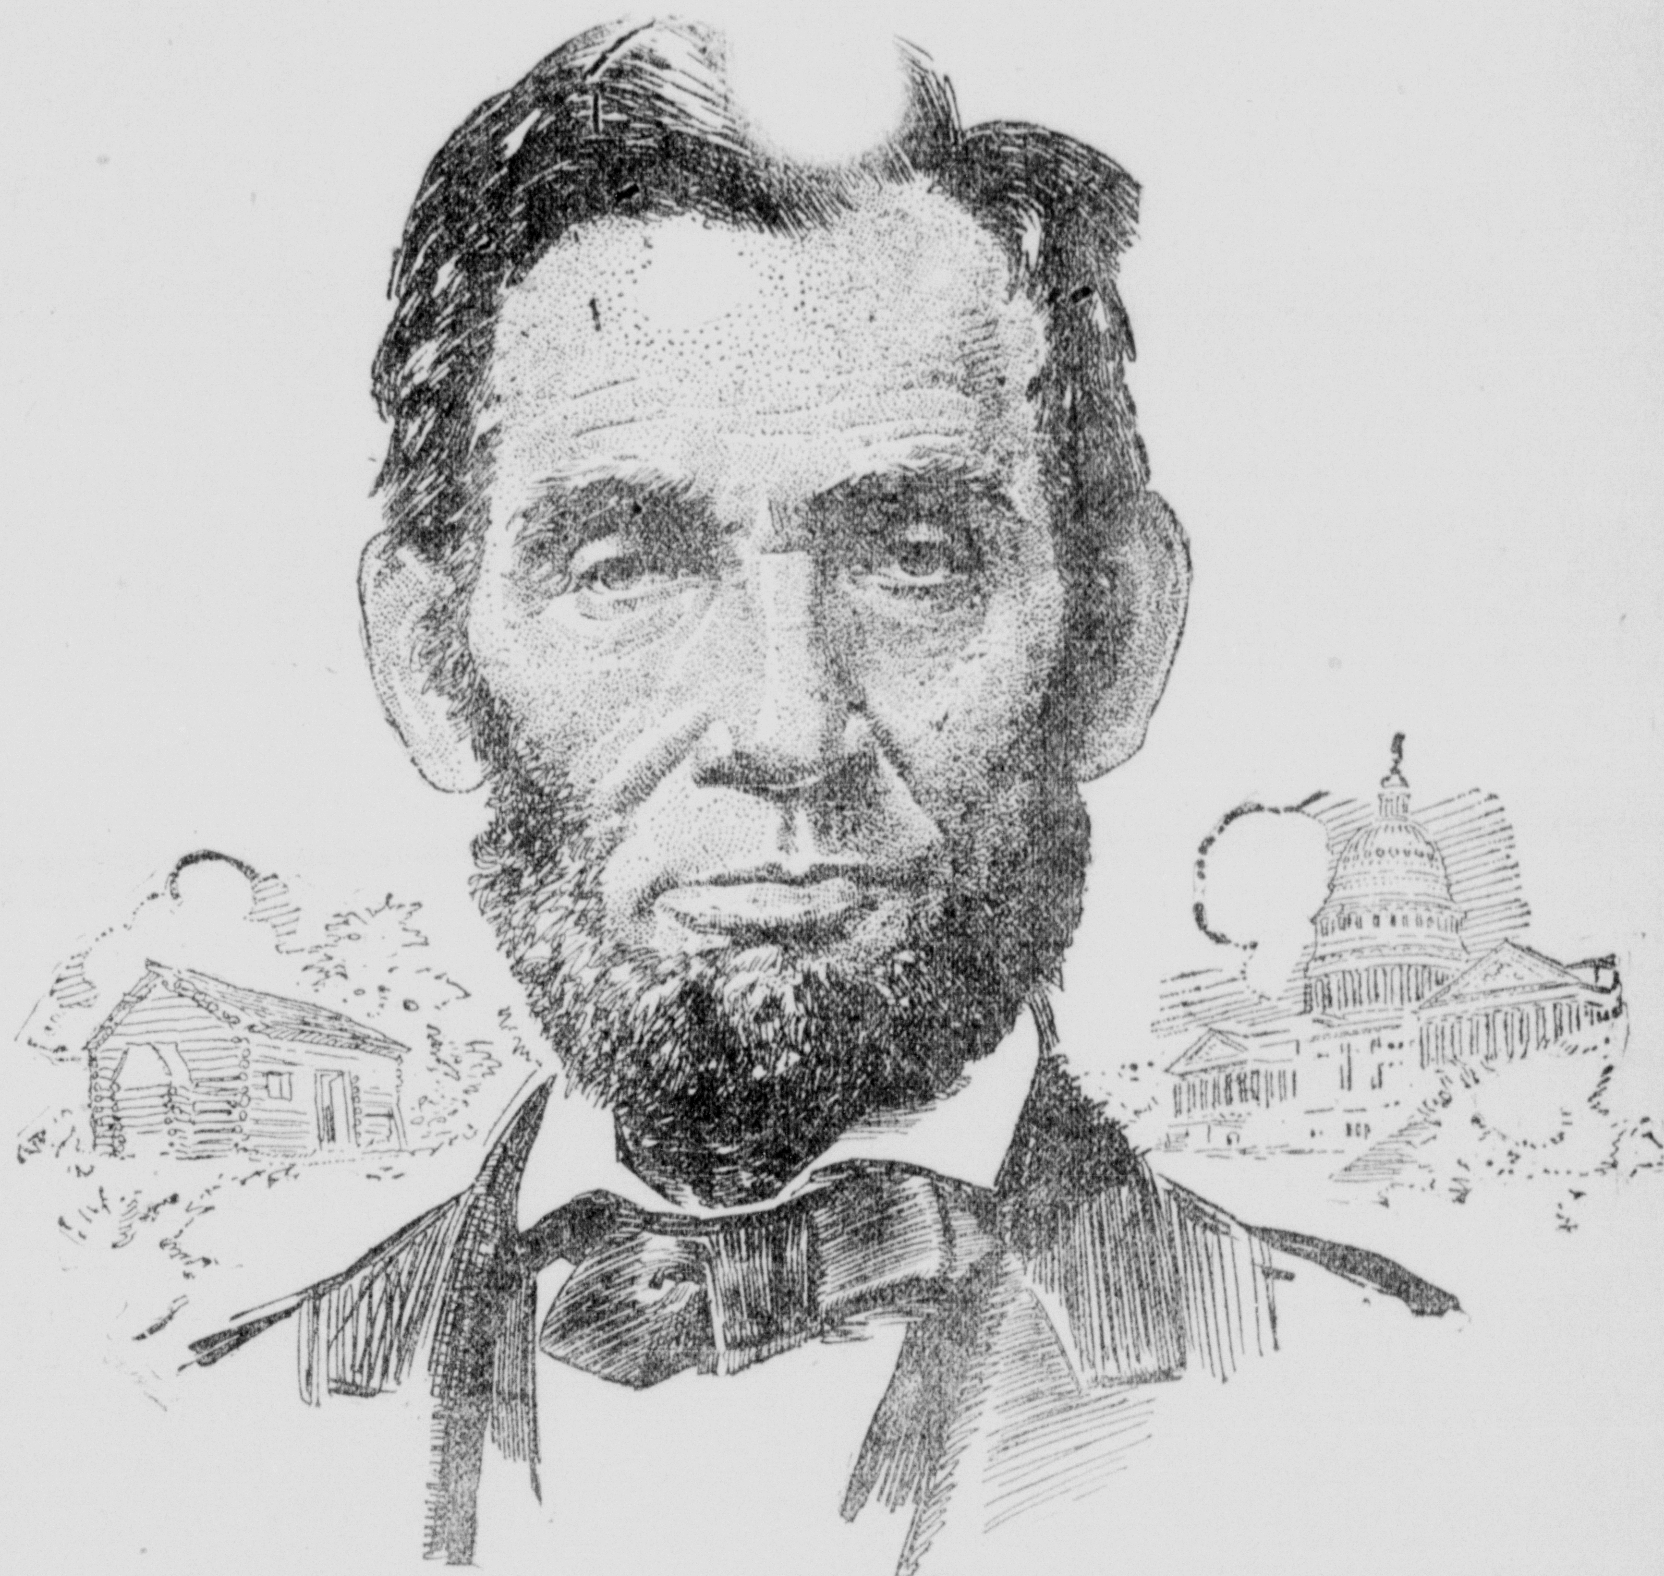

And I will proceed to sell the same for cash within the hours prescribed by law for sheriff's sales on the first Tuesday in March, A. D. 1924, it be-

ing the 4th day of said month, before the court house door of Milam county, Texas, in the town of Cameron, Texas, together with all interest therein and thereto had or held by the Empire Fuel Products Corporation, Adam H. Davidson and A. H. Winston, jointly and severally, to satisfy a judgment in the sum of \$4,818.44, with interest thereon at the rate of ten per cent per annum from the 12th day of December A. D. 1923, the date of said judgment and for costs. Said judgment being rendered in the District Court of McLennan county, Texas, 74th Judicial District of Texas in the cause aforesaid of The Shear Company vs. Empire Fuel Products Corporation, and judgment being in favor of the plaintiff therein The Shear Company against the defendants therein, Empire Fuel Products Corporation, Adam H. Davidson and A. H. Winston, jointly and severally.

Given under my hand this the 4 day of February, A. D. 1924.

D. S. Rogers, Sheriff.

By P. S. Graves, Deputy. 40 3t

And Lincoln's Words Shall Guide Us Onward

Guided by a code imparted to him by his mother Abraham Lincoln throughout his public and private career carried the name of "Honest Abe." Unusual and many were the problems which befell the great emancipator in the course of his existence, but always guided by the cardinal principles of fair play towards all men, the backwoods lawyer emerged on the upper level.

It is the guidance and adherence to certain ethical procedures which determine our exis-

tence this day. To follow in the footsteps of "Honest Abe" is indeed a worthy accomplishment and one that we hold foremost as an asset of our business.

Though conditions change and methods of business practice often may invite a detour in the interest of greed, we celebrate the birthday of the great lover of mankind by pledging ourselves to continue in the righteous path which we have elected to follow.

Severe Pains in Side

"I HAD had quite a bad spell and sickness," writes Mrs. Emma Patrick, of Caney, Ky., "and it was an effort for me to go about my home. I had a very severe pain in my left side that almost took my breath at times. I lost my appetite. I grew thin, pale and lifeless. I fell off till I only weighed about 115 pounds."

"Cardui was recommended to me and by the time I had taken one bottle I saw it was what I needed. I ate more and

rested better. I kept taking it and my skin and flesh took on a more healthy color. I felt stronger and, as the nervousness left me, the pain in my side was less severe. After taking nine bottles, I eat anything, go anywhere and feel fine. I weigh 180 pounds and am well. I feel that I owe it all to having used Cardui."

Pain, in certain parts of the body, is a sure indication of female complications. The treatment needed is not the use of narcotic drugs, but—

CARDUI
The Women's Tonic

Wilson Mountain Peak Man of History Says Cullen F. Thomas

It has been the lot of those the world called great to be misrepresented and assailed by the generations they served. George Washington was charged with embezzlement and treason, and threatened with impeachment; now he is remembered as "the greatest of good men and the best of great men." Alexander Hamilton was stoned on the steps of the city hall in New York City; now he is acclaimed one of the two greatest political philosophers in our country's history. John Marshall was hanged in effigy at Baltimore; now he takes his place in our country's annals as perhaps the greatest jurist of the greatest court of all times. Abraham Lincoln was maligned, misunderstood, murdered; now in the North and South alike and across the seas his figure grows as the one great typical human American.

So Woodrow Wilson, while living, did not escape calumny. In death petty spite is hushed, and his grave silences the raucous voices of cruel partisanship.

Throughout his own land and in all lands, men and women honor him as one of the mountain-peak men of the race.

As we pause today in his memory, we pass in review the story of his struggle from obscurity to the highest pinnacle of earthly fame. Heine tells us that beneath every grave-stone is the history of a world. How charming and challenging the story of Woodrow Wilson.

Born with superior natural endowments; passing his childhood in the moral atmosphere of a Presbyterian parsonage; trained from his youth up for leadership and service; teacher of history; writer of history; and at last maker of history.

Hugo tells us that the most powerful thing on earth is an idea whose hour has come. What was this idea whose hour had come for which Woodrow Wilson battled and spent himself? Was his some ignoble purpose? Was his impulse but selfish gain? Did he covet for his country colonies, spoils or empire?

For answer, in memory, we turn back the years. We see him become the commander-in-chief of the most splendid army ever marshaled, with no ambition for dominion or glory. We saluted him as with solitary and unrivaled spokesman for the purposes and aspirations of this republic, when one half-baked utterance would have meant catastrophe. We commissioned him as the champion of a new order to help set up the foundations for world peace. We saw him sit down in world councils with diplomats, premiers and heads of mighty governments, in world vision the superior of them all.

Around him were the smoldering ruins of a world on fire. He had seen 30 great nations of the earth plunge into the black abyss, and our own republic dragged in against our will. Back of him were three hundred billions of property destroyed to burden the backs of generations unborn. Rotting in the ground were the bodies of ten millions of men who loved life, the flower of the race. He heard the heart-cry of the world to

CULLEN F. THOMAS

help rid the earth of the curse of war. He visioned the uplifted hands of generations to come, begging that they be spared the despair and tragedy of another world war.

So, with devotion unsurpassed since Calvary, he consecrated all he was and all he hoped to be to find a way to world peace. He set up his structure. He pointed the nations to the way he thought best. Men differ as to the wisdom of his way. Other nations accepted his plan; as of old, his own received him not. Other lands hailed him as a prophet of a new day; in his own we saw that prophet scourged and scorned. We saw him fight with a crusader's zeal for his cause, saw him baffled and broken on the battle field of public opinion; but, thank God! undefeated and undaunted to the end.

Some there were who said he had made a losing fight; some there were who rejoiced when his political course was finished; but all the world knows Woodrow Wilson kept the faith.

Those there are who say that he was an idealist; ideals such as his are stars that light the way for the race in the dark. Those there are who say he was a dreamer; dreams such as his lead and lift humanity out of the bog and fog of the lowlands to the mountain tops, where the skies are blue and the air is pure.

We take issue with the great British premier that such a life is failure. Heroic sacrifice for noble cause was never a failure.

Robert E. Lee gave his stainless sword for a cause that was lost; his life was not a failure.

Travis, Bonham, Crockett and Bowie were overwhelmed as they died for liberty at the Alamo. Their lives were not failures.

Peter was crucified head down and Paul had his head cut off with a

sword outside the gates of Rome. Peter and Paul were not failures. "Speak history! Who are Life's victors?"

Roll back thy long annals and say. Are they those whom the world calls victors?

Because of the success of a day? The martyrs, or Nero?

The Spartans who died at Thermopylae's tryst,

Or the Persians and Xerxes,

His judges or Socrates?

Pilate or Christ?"

No man since time began ever toiled and sacrificed for a righteous cause in vain. The armed battalions of God fight with him.

Scholar and statesman, dreamer and toiler; son of America, citizen of the world; friend of all races, apostle of world peace; prophet of a better age, servant of God; happy warrior that never dipped his flag and fronted death ready and unafraid, hail an farewell!

ELECTION NOTICE.

WHEREAS, the Ordinances of the City of Cameron require the holding of the regular annual election of officers for the City of Cameron, Texas, for the year 1924;

THEREFORE, be it resolved by the City Council of the City of Cameron, that an election be held in said City of Cameron on the 1st day of April A. D. 1924, the same being the first Tuesday in said month for the purpose of electing the following officers, to-wit:

Mayor, Secretary and Treasurer, City Attorney, Assessor and Collector, Marshal and five Aldermen; and it is so ordered.

Said election shall be held at the City Hall, and the following named persons are hereby appointed managers of said election: Alex Triggs, presiding judge, and such other assistants and clerks as shall be appointed by said Alex Triggs to assist in accordance with law. The manner of holding said election shall be governed by the laws of the State of Texas, regulating general elections.

A copy of this order, signed by the Mayor of said City shall serve as a proper notice of said election; and the Mayor is directed to cause notice of said election to be posted at the place designated for holding said election, and by printing in the Cameron Herald for at least thirty days prior to the date of said election.

H. M. HEFLEY.

Passed at a regular meeting of the City Council of the City of Cameron, Texas, on the 15th day of January A. D. 1924.

Approved January 15th, A. D. 1924.

J. B. WHITE, Mayor.

J.D. DOBBINS The Man Who Saves You Money

If Back Hurts Begin on Salts

Flush Your Kidneys Occasionally
by Drinking Quarts of
Good Water

No man or woman can make a mistake by flushing the kidneys occasionally, says a well-known authority. Too much rich food creates acids which clog the kidney pores so that they sluggishly filter or strain only part of the waste and poisons from the blood. Then you get sick. Rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders often come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage, or attended by a sensation of scalding, begin to drink soft water in quantities; also get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine.

This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help flush clogged kidneys and stimulate them to activity, also to help neutralize the acids in the system so they no longer cause irritation, thus often relieving bladder disorders.

Jad Salts is inexpensive and can not injure; makes a delightful effervescent lithia-water drink, which everyone can take now and then to help keep the kidneys clean and the blood pure, thereby often preventing serious kidney complications. By all means have your physician examine your kidneys at least twice a year.

Gold Mummy Case In the Tomb of King Tut

Luxor, Egypt, Feb. 12.—The lid of the sarcophagus of King Tut-Ankh-Amen, who ruled over Egypt 3,200 years ago, was raised Tuesday. It is understood the body of the King was found within.

The lid of the great pink coffin was raised about two inches Monday during a test of the hoisting machinery, but no attempt was made to discern the contents at that time.

When the lid was raised Tuesday there was revealed the most splendid gilded mummy case ever found in Egypt. It is about three meters long.

The mummy case bears an effigy in relief of the King wearing the gems, or sacred headdress, like that of the Sphinx, decorated with the head of a hawk and a serpent in pure gold set with Lapis Lazuli. The hands are crossed, one bearing a crook scepter and the other a flail.

A pathetic touch is given the effigy by a little crown of withered natural flowers set about the gold headdress.

The royal mummy case has not yet been opened.

Apparently the decision that the opening of the sarcophagus would be strictly private was reversed during the morning, for shortly before 3 o'clock a distinguished company of some twenty persons assembled in the well of the tomb. It was just 3:05 o'clock Tuesday afternoon, when, escorted by Mr. Carter, the party entered the tomb and soon there came to the ears of the watchers who sat on the parapet in a blazing sun the clank of pulleys and the sound of ropes slipping through the blocks. At 4:15 the party emerged from the tomb.

Experts characterized the disclosure of the mummy case as the greatest discovery in the history of Egyptology, or possibly in all archeology.

DISTRICT COURT NEWS.

The case of the State of Texas vs. Ed. Beard, charged with murder was called for trial Monday morning. The defendant asked for a continuance on account of the absence of two witnesses, J. A. Smith and Miss Iva Smith, both of Waller, Waller county, Texas. The motion for continuance was over ruled by the Court and the selection of a jury was begun out of a venire of 150 men who were summoned from which to select a jury to try this case. Eleven jurymen were selected before the venire was exhausted Monday evening and the Sheriff was ordered to summons 16 men to be on hand Tuesday morning when the 12th and last jurymen was selected. Witnesses for the State were placed on the stand Tuesday morning.

Ed. Beard is being tried for killing Robert Caffey in Thorndale, Texas on Sunday September 9th, 1923, the indictment was found by the Grand Jury October 4th 1923, and this case was set for trial October 22nd, 1923.

SAGE TEA TURNS GRAY HAIR DARK

It's Grandmother's Recipe to
Bring Back Color and
Lustre to Hair

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray or streaked, just an application or two of Sage and Sulphur enhances its appearance a hundredfold.

Don't bother to prepare the mixture; you can get this famous old recipe improved by the addition of other ingredients at a small cost, all ready for use. It is called Wyeth's Sage and Sulphur Compound. This can always be depended upon to bring back the natural color and lustre of your hair.

Everybody uses "Wyeth's" Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy and lustrous.

Office Phone 83. Residence 243
Cameron, Texas.

This trial resulted in a hung jury. One week was required to try this case the first time. This case was set for trial again January 14th but on application of defendant same was continued or reset for February 11th, 1924. The State is represented by A. J. Lewis, County Attorney and E. A. Camp of Rockdale, Texas, the defendant by Chambers, Wallace & Gilks of Cameron. A large number of witnesses are in attendance upon court and a large crowd of spectators are on hand at each session, the court room being filled. The following is a list of the jury trying this case:

W. H. Spears, Crush, H. W. Witcher, San Gabriel, J. W. Hillon, Rockdale, John Armstrong, Tracy, E. H. Walton, Marlow, J. F. Holliman, New Salem, J. H. McLerran, Jones Prairie Chas. Maas, Burlington, J. L. Foster, Jr., Hoyte, David Hine, Davilla, H. F. Shulz, Clarkson, L. E. Murff, Burlington.

Every man on this jury is a farmer and lives in the country. Indications are that the rest of this week will be consumed in the trial of this case.

CONSTABLE'S SALE.

THE STATE OF TEXAS

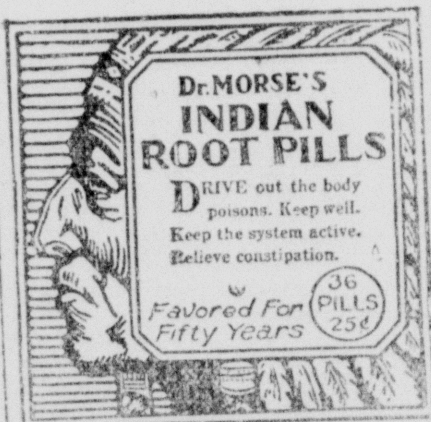

County of Milam.

By virtue of a certain Writ of Execution issued out of the Honorable Justice Court of Precinct No. 1, Milam county, on the 8th day of February 1924, by J. M. Ralston, Justice of the Peace of Precinct No. One of said Milam county against Marshall E. Weems for the sum of One Hundred Sixteen and 19-100 (\$116.19) Dollars with 10 per cent interest per annum from Jan. 28th, 1924 and \$11.61 attorney's fees and costs of suit, in cause No. 2109 in said Court, styled Robert McLane Company a corporation, versus Marshall E. Weems and placed in my hands for service, I Chas. SENS as constable of Precinct No. One, Milam county, Texas, did on the 9th day of February 1924 levy on certain Real Estate, situated in Milam county, described as follows, to-wit:

All of the right, title and interest of the said Marshall E. Weems in and to the following described tract of land; all that certain tract of land in Milam county, Texas, out of the A. B. Hayworth league grant and is that part of the 156 1-2 acres set apart to the said W. S. Massengale in the partition of the said tract between himself and the heirs

**ONLY STANDARD FORMULAS
OF FERTILIZERS FAVORED
BY A. & M. COLLEGE CHEMIST**

College Station, Texas, Feb. 12.—Chemistry of the Experiment Station cent more fertilizer in Texas this year than in any previous year, Dr. G. S. Fraps, chief of the Division of Chemistry of the Experiment Station of the A. & M. College and State Chemist, has issued a recommendation to farmers that they buy only the standard fertilizer formulas. While there are 167 different kinds of fertilizer mixtures registered for sale in Texas, Dr. Fraps recommends only the eleven standard formulas, great number is not at all necessary," he said, "and their use merely causes fertilizers to cost more. The use of the standard formulas will result in reducing the cost of plant food, simplify recommendations for use of fertilizer and reduce the purchasing and handling of unnecessary weight found in the lower grade fertilizers. Fertilizer means plant food, phosphoric acid, nitrogen and potash in such forms that the plants can take them up readily. It is not possible to buy these elements pure but it must be bought along with other materials which are necessary as carriers of the plant food. There are various combinations but for simplification and economy they have been standardized for Texas, conditions on a basis of the soil, crop and other conditions. The names of these are expressed in figures which show the proportionate amounts of the three plant foods and thus are easy remembered and understood. At the three figures in each fertilizer designated, the first indicates the amount of phosphoric acid, second nitrogen and third potash. For instance a 12-4-4 fertilizer is one containing 12 per cent available phosphoric acid, 4 per cent nitrogen and 4 per cent potash. The analysis printed on the bag or tag should correspond to one of these figures if the goods are standard formulas. Information for selection of the proper formulas may be obtained by writing the College."

PIONEER PHYSICIAN DEAD.

The body of Dr. J. L. Brown who died at his home near Desdemonia on Tuesday of last week at the ripe old age of 63, reached Thorndale on the early morning train last Friday and was carried to the home of his daughter, Mrs. Jones Clement in Thorndale, from where at 1:00 o'clock in the afternoon it was taken to Salty, the home of the deceased for many years.

The funeral service was held at Salty at 2:30 p. m. conducted by Rev. M. I. Brown, pastor of the Methodist church in Thorndale and Salty. Interment took place in the Salty cemetery. The funeral was largely attended, people from adjoining towns

and communities who had known Dr. Brown all their lives and who had every cause to love and respect him, this being evidence by the profusion of flowers in bouquets and wreaths which were offered in abundance.

Dr. Brown was born in Lee County, near Dime Box, on Nov. 31, 1859, where he grew to young manhood, and where he practiced medicine after receiving his education and before moving to this county and locating at Salty in 1893. He built up a large practice at Salty and contiguous communities and was a very successful practitioner. It is said of him that he was not only an efficient physician but was kind and considerate of the minor whims—the likes and dislikes—of his patients, and no night was too dark or too cold to prevent his answering the call of his patients.

Dr. Brown left this county in 1907, shortly after the misfortune had visited him in the loss of his faithful wife, and located in Leon county where he resided until locating near Desdemonia, where the end came primarily as a result of heart trouble.

He is survived by ten children as follows: Ulrich W. Brown, Sayre, Okla.; Mrs. Jones Clement, Thorndale; Mrs. Addie Wyatt, Denver, Col.; Walter C. Brown, Gray, Okla.; J. Milton Brown, Ranger, Texas; Mrs. Lona Minter, Dalhart, Texas; Ralph Brown San Antonio; Miss Roberta Brown, Dalhart; and Mrs. Mabel Wallace Ardmore, Okla. All of whom were present at the funeral except Mrs. Wyatt and Wallace.

The Champion joins the many friends of the family in extending sincere sympathy to the bereaved relatives, sons and daughters.—Thorndale Champion.

**SANDOW LIGNITE COMPANY
WITH ITS RAILROAD
NOW IN OPERATION.**

The Reporter enjoyed a short business call yesterday morning from A. P. Rudowski, president of the Rockdale, Sandow & Southern R'y Company, the new road leading out to the Sandow Lignite Company's properties a few miles southwest of Rockdale. Accompanying Mr. Rudowski was M. R. Reddell, the new cashier of the

Sandow Lignite Co., who will be first management of the new mine.

The Sandow Lignite Company is now in operation and is producing all the coal they can get empties to handle, these gentlemen stated, the coal being taken out by the steam-shovel "stripping" process.

The company has a heavy investment, and is contemplating the spending of much more money in the perfection of its plant and railroad. The next big item of expense will be the construction of houses for the mine operatives.

Local banking connections have been formed, and all the men will be paid in checks on Rockdale banks and supplies purchased in this city. Mr.

Rudowski states that it will be the policy of the company to spend its money locally insofar as possible.—Rockdale Reporter.

WHY FINANCE FAVORS INCREASED FARM EXPERIMENT FACILITIES

American Bankers Association Indorses Purnell Bill Because It Believes What Is Good for Farming Is Good for the Country—Obsolete Farm Methods Doomed.

By D. H. OTIS, Agricultural Director, American Bankers Association

If the agricultural colleges and experiment stations are to function effectively and give up-to-date, reliable information and aid in respect to farm problems, they must have sufficient funds to carry on adequate research and experimental work so as to discover practical ways to improve agriculture. The present Federal appropriation of only \$30,000 a year to each of the experiment stations is deplorably inadequate to meet the pressing needs that are constantly coming before them.

D. H. Otis

The Purnell bill, which has been before Congress and will again be urged during the present session, provides for an increase of \$15,000 in the national appropriation for each agricultural experiment station. It also provides for gradually increased appropriations until the total amount equals \$85,000 annually for each institution. The American Bankers Association, through its Administrative Committee, has placed itself squarely on record as being in favor of this measure because it believes that what is thus fundamentally good for farming is good for the country.

What Farming Requires

Farming requires skill of no mean sort. A farmer is ever facing new conditions and must adjust his activities to cope with them. The problems of the soil, of crop production, livestock breeding and feeding, and business management of the farm call for as high an order of brain power as any industry. The young man of today need not leave the farm for a career. There is abundant opportunity for the exercise of his best faculties in helping to develop a basic industry that affects the welfare of every human being.

In order to farm properly and economically, the farmer must be equipped with a high degree of technical skill. Farming by guesswork belongs to the past. No longer can he gauge his activities by the position and shape of the moon. Success demands the application of the best knowledge and experience available. New problems arise daily. New solutions must be found. Discoveries are being made that affect practical farm methods tremendously. Insect pests and plant diseases are constantly putting in their appearance and must be combated by the most effective methods. Competition makes that imperative.

Old Ways Do Not Pay

Land prices have been soaring. Following the Civil War, immense areas of fertile land were available almost for the asking. But today the most efficient land is all taken up, and the expansion of our agricultural production must come from either increased yields per acre or from farming the less efficient land. The higher the price of land the greater the overhead. What was profitable on cheap lands may be very unprofitable on high-priced land. To meet these changing conditions requires new stores of knowledge and new methods of applying knowledge.

Today many old methods of farming are inadequate and unprofitable. Time was when it may have been cheaper to let a horse or cow die rather than to go to the expense of calling a veterinarian. Today we must discover new methods of treating disease and saving our cows. We must also discover ways and means to prevent disease, to improve our

TEAMWORK

successfully grown, by studying crop rotation and the utilization of by-products, and by developing mechanical devices that save labor and increase efficiency.

Much as the experiment stations have done, research work is still in its infancy. There are still greater problems awaiting solution. We must delve deeper, we must push further into the unknown, we must devise systems of farming that are more profitable than the ones we are now using. The experiment stations must have increasing financial support to achieve these ends.

loan money, but to loan himself—to the service of his community.

MANY A WAY TO OBTAIN CREDIT

The farmer, who is the initial producer of goods, has more agencies designed to assist in his financing than has any other group, partly as a result of the natural growth of our present financial structure and partly because of the special agencies created by the government during recent years. The list of his credit sources is a surprisingly large one, for he may borrow directly from the savings banks, trust companies, and insurance companies; may use the Federal Farm Loan Banks and the Joint Stock Land Banks; may sell his mortgages through local farm loan mortgage brokers, the larger mortgage companies, and certain investment banking houses; if a cattle raiser, he can discount his paper with cattle loan companies; his marketing is often done through a state or national co-operative marketing association; he has access to the regular commercial banks for short time funds; and of course, participates as any other consumer in the usual retail store credit. Moreover, the Federal Reserve Act has provided broad accommodation for agriculture in its text as originally adopted and in the several amendments since made, and the Agricultural Credits Act authorizes the establishment of the Federal Intermediate Credit Bank as a further aid. When one hears the statement made that in our economic system the farmer alone is not provided for, the answer is merely, "It isn't so." Many people are coming to believe, and this includes some of the agricultural bloc in Congress, that the farmer's trouble is not due to his lack of credit but to having had credits granted too easily and in too large amounts.—*Journal of the American Bankers Association.*

EVERY BUSINESS MAN'S GREATEST OBLIGATION

By WALTER W. HEAD

President American Bankers Association

We speak reverentially of "Our Country." What do we mean? Are we thinking of the service which we owe to our country, of the love which we bear for it, or are we thinking only of the protection which our country can afford us, only of the benefit which we may derive from it? Are we thinking of what we may do for our country, or of what our country may do for us?

Walter W. Head

Our duty to ourselves and our country requires positive as well as negative action. We must be constructive. As citizens of our country, do we fulfill the obligations incumbent upon us? Do we exercise our right to vote—and when we do, do we always place intelligence, efficiency and patriotism in government ahead of every other consideration?

The message which I wish to emphasize is a simple truth, one easily understood, but one of great importance, perhaps more important today than ever before: We—I, as an individual—must be responsible for our government—my government.

We cannot delegate our responsibility in government to someone else. There is no substitute for individual interest in government and individual responsibility for government.

I have said to bankers that the greatest duty of the banker today is not to

RESOLUTION OF RESPECT.

Cameron, Texas, Feb. 12, 1924.
To the Officers and Members of
Cameron Lodge 56, I. O. O. F.
The Supreme Grand Master of the Universe in His infinite wisdom has called Mrs. G. C. Walters, the wife of our esteemed Brother, from this world of pain and sorrow to her rich reward in that Promised Land. And while we deplore the passing of this good lady, wife and mother, we humbly bow in submission to the will of one who does all things for the best. Our deepest sympathy and condolence is extended to that good and faithful husband and those two beautiful and lovable sons. May God's richest blessings be theirs, for we know that He alone can heal those sorrowing hearts.

We ask that a copy of these resolutions be sent our Brother G. C. Walters, a copy be furnished the Cameron papers for publication, and a copy be spread upon the minutes of this Lodge.

JEFF. T. KEMP,
C. R. LAW,
J. F. CHADWICK,
Committee on Resolutions.

DANGER IN DELAY.

Kidney Diseases Are Too Dangerous For Cameron People to Neglect.

The great danger of kidney troubles is that they so often get a firm hold before the sufferer recognizes them. Health will be gradually undermined. Backaches, headaches, nervousness, lameness, soreness, lumbago, urinary trouble, dropsy, gravel and Bright's disease may follow as the kidneys get worse. Don't neglect

your kidneys. Help the kidneys with Doan's Pills, which are so strongly recommended right here in Cameron.

T. F. Weaver, Box 443, Cameron, says: "I have used Doan's Pills off and on for some time and they have never failed to give me good results. At times I have had slight attacks of backache and the action of my kidneys annoyed me. Doan's Pills always gave me the desired results when I used them for these attacks. I keep Doan's on hand and recommend them as a kidney remedy of merit."

Rub Rheumatism or Sore, Aching Joints

Rub Pain right out with small trial bottle of old "St. Jacobs Oil."

Rheumatism is "pain" only. Not one case in fifty requires internal treatment. Stop drugging. Rub soothing, penetrating "St. Jacobs Oil" right into your sore, stiff, aching joints and muscles, and relief comes instantly. "St. Jacobs Oil" is a harmless rheumatism liniment which never disappears and cannot burn the skin.

Limber up! Quit complaining! Get a small trial bottle of old, honest "St. Jacobs Oil" at any drug store, and in just a moment you'll be free from rheumatic pain, soreness, stiffness and swelling. Don't suffer! Relief awaits you. "St. Jacobs Oil" has relieved millions of rheumatism sufferers in the last half century, and is just as good for sciatica, neuralgia, lumbago, backache, sprains.

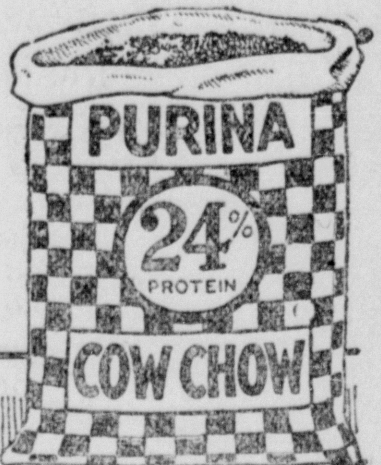

Say! Bossie, what's the matter with you?"

"Nothing, except that you let Cow Chow run out. I can't make as much milk on anything else, and you know it."

There are a lot of men right around Cameron who know it too. If you want more milk at a lower cost per gallon, let us show you how Purina Cow Chow will get it. We will furnish the milk scales to make a test. See us or phone us.

They Paid \$200,000,000 for Studebaker cars last year

Find out why folks did it

LAST year 145,000 people paid over \$200,000,000 for Studebaker cars.

The demand for these cars has almost trebled in three years. It has become the sensation of Motordom.

There is a new situation in the fine-car field. You should learn what it means to you.

Studebaker had to lead in this field. This concern has led in its lines for two generations. Any other place would be unfitting.

This is how we became the world's largest builders of quality cars.

\$90,000,000 assets
Studebaker has \$90,000,000 of assets. Of this \$50,000,000 is invested in modern plants and equipment.

We have spent \$32,000,000 for new plants and equipment during the last five years. So they are modern and efficient. They contain 12,500 up-to-date machines.

We have \$8,000,000 in drop forge plants, \$10,000,000 more in body plants. So we build complete cars without paying other makers profits.

We spend \$500,000 yearly on an engineering staff. There are 125 skilled men employed in our department of Research and Experiment. They make 500,000 tests per year.

We employ 1,200 inspectors. Each Studebaker car must pass 30,000 inspections during manu-

Then on some steels we pay makers a 15 per cent bonus to insure exactness in them.

Every Studebaker car is Timken-equipped. The Special-Six and the Big-Six have more Timken bearings than any car selling under \$5,600 in America.

The Light-Six more than any competitive car within \$1,000 of its price.

We use genuine leather upholstery.

We use Chase-Mohair for the closed car upholstery. Some good upholstery would cost \$100 less.

To curb vibration, we machine all surfaces of crank shafts, as was done in Liberty Airplane Motors. Very few cars do that.

How such prices?

How can we give such extra values—scores of them—yet sell at our low prices?

Because these values brought us buyers—145,000 last year. The major extra costs are divided by enormous output.

Let us show you the extras you get, because of these matchless facilities.

Learn Why 145,162 Bought Studebakers in 1923.

Studebakers hold the top place in the fine car field today.

In 1919, the public paid over \$80,000,000 for 39,356 Studebaker cars.

In 1920, the public paid over \$100,000,000 for 51,474 Studebaker cars, an increase of 31% over 1919.

In 1921, the public paid over \$120,000,000 for 66,643 Studebaker cars, an increase of 29% over 1920.

In 1922, the public paid over \$155,000,000 for 110,269 Studebaker cars, an increase of 66% over 1921.

In 1923, the public paid over \$201,000,000 for 145,162 Studebaker cars, an increase of 32% over 1922.

In 1924, business has opened with Studebaker as never before.

Learn why all these buyers preferred Studebakers.

factory before it leaves the factory.

Those enormous facilities enabled us to produce the utmost in a car. And we had the will to do it.

No stinted costs

We never stint on costs. Every steel used is the best steel for its purpose, regardless of the price.
